Meeting Length/Direction

During the meeting it was discussed the need to review the Food Policy Council's Mission Statement and Goals to ensure they are aligned with the needs of the community and target food insecurity in the City. How can we provide residents with easier access to skills and resources? The website has resources made available but the council aims to inform residents of its existence. Reggy mentioned having informationals held at other events around the city with the goal to make residents aware that there is a Food Policy Council and this is a resource that can aim them in the direction needed.
