**William Robinson**  
General Manager

**NOTICE**

TO: SEWER CONNECTION PERMIT APPLICANTS

RE: PROPOSED NEW SEWER CONNECTION:

Applicants for new sewer connections shall submit three (3) drawings, to scale, for the proposed connection. Your proposed connection must be reviewed and approved by the CITY ENGINEER prior to submitting the completed application to the WATER POLLUTION CONTROL AUTHORITY (WPCA) for their approval. Please provide the following information, to scale, on your drawing, along with three (3) copies of the completed WPCA CONNECTION PERMIT APPLICATION form.

**Note: Please see #13 for the Asbuilt Plan submission requirement**

1. Do not write on this sheet.
2. Name of WPCA personnel that furnished existing sewer main data.
3. The existing sewer main size and type pipe material together with the Sewer Record Map Number.
4. Street name
5. Building lot
6. Proposed or existing building
7. Designate proposed sewer service (lateral line minimum 6" diameter) indicating dimensions off building and existing manhole in the sewer main.
8. Indicate size and type of material of service (lateral) line.
9. Indicate invert elevations (based on City of Bridgeport datum) of proposed service line at the building face and at the connection to the sewer main.
10. Indicate invert elevation of the existing sewer main at the service line connection.
11. Indicate the connection method proposed to connect service line to existing sewer main. If a saddle state model number attach catalogue information.
12. Indicate type of bedding and backfill material to be used. Show the details.
13. As Built Plan shall show the exact locations & inverts of the sanitary lateral connections on the map. It shall also show the exact location & invert of the existing sanitary line to which the proposed connection is made. This requirement is applicable during construction & filing of an As Built Plan with the city. **Please notify the contractor to coordinate with the Surveyor to record the exact locations.**
