

Snow Emergency Streets

Proposed amendment of Title 10, Chapter 10.12, Section 050 of Bridgeport Municipal Code (1995) **“Streets Designated”**. In an effort to keep the designated streets free from accumulation of snow in order to secure adequate clearance on streets and to provide continuity in major streets for the city’s emergency services the following amendment is offered for consideration:

“Title 10, Chapter 10.28, Section 050, Paragraph A of the Bridgeport Municipal Code is repealed in its entirety and the following new language is substituted in its place.”

10.28.50 Streets Designated

The following streets shall be known and designated as snow emergency streets:
