**MAYOR GANIM ANNOUNCES CITY COUNCIL APPROVAL FOR 2024-2025 FISCAL YEAR BUDGET**

**BRIDGEPORT, CT** – This evening, Mayor Ganim and the Bridgeport City Council approved the 2024-2025 fiscal year general fund budget. The new budget highlights key points which are regarded as vital to city government, as changes have been made to maintain the City’s fiscal stability while tending to the needs of Bridgeport residents.

Mayor Ganim stated, "It’s my pleasure to let Bridgeport residents know that we’ve passed another successful budget. The budget for the new fiscal year continues to hold the line on taxes while funding crucial areas of city government such as hiring 100 new police officers, providing tax relief for seniors, and providing more funding for education. These budget plans are also pushing the promise of improving the quality of life for our residents in areas like hosting another year for our Household Bulk Pickup program and committing to road repairs. As we start a new fiscal year in Bridgeport, I can assure that our residents will receive the services they deserve while maintaining our City’s fiscal stability."

Many of the significant factors of the 2024-2025 fiscal year budget include the mill rate not being increased for the new fiscal year and is partnered by a major expansion for tax relief for property owners who are seniors or disabled. Eligibility for seniors and disabled residents has risen to \$75,000 for yearly income with these communities now being able to receive up to \$1,300 in tax relief based upon their income level, significantly broadening the range of residents who are able to receive this service.

Significant resources will be placed into permit and inspection operations, which includes more funding for fire marshals, health inspectors, and zoning inspectors. Resources will also be placed in other divisions throughout Bridgeport as police personnel will receive funding for new classes to promote increased community policing. These funds are also to be used to support the joint initiative between Mayor Ganim and the Bridgeport Police Department to hire 100 new police officers to the department.

Another key factor to be taken from the new budget is the direct improvements to quality of life the budget will provide. The Bridgeport Board of Education has received a significant raise in funding from both the City and State, with City funding being increased by \$3 million, totaling a \$15 million increase over the last 6 years. This increase compliments the approximate \$20 million increase in State funding throughout the last 6 years. The Capital Plan will further benefit Bridgeport schools by improving school HVAC systems and will respectively provide more street paving, fire and sanitation trucks, parks and golf course improvements, and funding aimed at local economic development.

**In addition, as a part of his strategic plan for FY2025 and beyond the Mayor tasked each department to align their goals and objectives to focus on seven key areas:**

1. Implement policies and initiatives throughout City government that improve the City's response to constituent needs and requests and increase the level of customer service with those who interact with City departments on a daily basis.
2. Promote economic development throughout the City, with specific goals to increase Bridgeport's housing stock (both market-rate and affordable), bring new industries to Bridgeport, support and expand the existing business community in the city, and work towards making Bridgeport the arts and entertainment capital of Connecticut.
3. Focus efforts within each department on addressing quality of life issues including, but not limited to, blight and cleanliness, public safety, street conditions, and more.
4. Improve the quality and affordability of housing in Bridgeport through the development of new quality and affordable housing in the city and the implementation of the new Fair Rent Office and Commission.
5. Foster an environment in Bridgeport that supports our small and minority businesses by conducting a new city-wide disparity study focused on racial, gender, and other disparities within city purchasing, as well as through the implementation of small business support programs through the SMBE Office.
6. Promote green initiatives throughout the City of Bridgeport and reduce the city's carbon footprint by promoting sustainability throughout city facilities and operations, preserving public parks and creating open space, and facilitating efforts to make Bridgeport a hub for clean energy production.
7. Hold the line on taxes by maintaining balanced budgets and strong credit ratings, while streamlining city services to be both effective and efficient.

Bridgeport was recently named among the top 5 booming cities to live in the country on the NBC Today Show.

## ACCOUNTING POLICIES

---

### *FISCAL YEAR*

The City of Bridgeport's Fiscal Year begins July 1 and ends June 30.

### *BALANCED BUDGET*

The Charter of the City of Bridgeport mandates a balanced budget. For the purposes of meeting this requirement, each year a budget is adopted in which the projected expenditures are equal to the projected revenues.

### *BASIS OF BUDGET & ACCOUNTING*

The City of Bridgeport's budget & accounting system is operated on a fund basis. A fund is a fiscal and accounting entity with a self-balancing set of accounts in which cash and other financial resources or balances are recorded and segregated to carry on specific activities or attain certain objectives in accordance with specific regulations and limitations. The operations of the general fund are maintained on a modified accrual basis, with revenues recorded when measurable and available and the expenditures recorded when the services or goods are received and liabilities are incurred. In contrast, accounting records for the City's enterprise, pension and nonexpendable trust funds are managed on the accrual basis of accounting. The types of funds utilized by the City are as follows: general; special revenue; capital projects; enterprise; and trust and agency. The type and number of individual funds established is determined by GAAP and sound financial administration.

### *BUDGET PROCEDURE*

The Mayor's annual budget is developed by the City's Office of Policy & Management (OPM). The budget is submitted to the City Council, which in turn makes additions and changes as necessary before turning it over to the Mayor for approval. The City maintains budgetary control through the Office of Policy & Management. The objective of budgetary control is to ensure compliance with the legal provisions embodied in the annual adopted budget approved by the City Council. The level of budgetary control is established by organization, agency, appropriation and object. The City of Bridgeport also utilizes an encumbrance accounting system as one technique for accomplishing budgetary control. Encumbrances reserve appropriations which have been obligated through purchase orders or other contractual documents. Encumbrances are reported as reservations of fund balance at the end of the year. Transfers of certain appropriations between departments require the approval of the City Council. The City of Bridgeport's Capital & General Fund Budgets must be adopted by the City Council and approved by the Mayor.

### *INTERNAL CONTROLS*

The management of the City of Bridgeport is maintained through a control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The control structure is designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived from that cost and that the valuation of costs and benefits requires estimates and judgments be made by management. In addition, the City of Bridgeport has an internal audit staff responsible for monitoring the various City departments in compliance with the City Charter, ordinances, and all other policies and procedures.

As a recipient of Federal, State and local financial assistance, the City of Bridgeport is responsible for ensuring adequate internal control policies and procedures are in place to ensure and document compliance with applicable laws and regulations related to these programs. This internal control structure is subject to periodic evaluation by management as well.

*LEGAL DEBT LIMIT*

The overall statutory debt limit for the City is equal to seven times the annual receipts from taxation or \$2.29 billion. As of June 30, 2023, the City recorded long-term debt of \$882.1 million and \$42 million in unamortized premiums related to Government Activities and \$29.6 million of long-term debt related to Business-Type Activities, well below its statutory debt limits. For more information on debt service, see the debt service section.

*RISK MANAGEMENT*

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City carries commercial insurance for insurable risks related to property and casualty claims. The City is self-insured for general liability, workers' compensation and employee health and dental insurance. Coverage has not been materially reduced, nor have settled claims exceeded commercial coverage or budget reserves for litigation claim expenditures in any of the past three years.

*WORKERS' COMPENSATION*

The City carries no insurance coverage for losses arising out of workers' compensation claims. These claims are paid from the Internal Service Fund. The City estimates the liability for workers' compensation claims payable and for claims incurred but not reported based on an actuarial valuation. This is accounted for in the Internal Service Fund.

*GROUP HEALTH INSURANCE*

Over the last twenty years the City had established an Internal Service Fund, the Self-Insurance, to account for and finance the retained risk of loss for medical benefits coverage. Due to the City experiencing significant increases in claim payments over prior fiscal years the City converted to a fully insured plan for health coverage. Each union of the City has converted throughout the current fiscal year, with only a few retiree members still currently under the self-insured plan. Payments within the Internal Service Fund related to claims incurred and outstanding prior to July 1, 2022 were completed during the year ended June 30, 2023. Future liability claims incurred but not reported (IBNR) are limited to the retirees still in the self-insurance on June 30, 2023. At June 30, 2023 this amount is \$161,226.

The City maintains a group health plan providing both insured and self-insured medical, prescription drug, dental and vision plan benefits as described below:

The following programs were provided under fully insured contracts until autumn 2018, at which time the City entered into a new self-insured administrative only contract with the Connecticut Partnership 2.0 plan, administered through the State Comptroller to Connecticut municipalities:

- Medical benefits for all active employees of the City and Board of Education,
- Medical benefits for all Medicare-eligible retirees who retired after December 31, 2018,
- Medical benefits for all Non-Medicare Eligible Retirees,

- Prescription benefits for all employees and all retirees except Medicare-eligible fire and police retirees.

The following programs are provided under fully insured contracts:

- Prescription benefits for Medicare-eligible fire and police retirees who retired prior to December 31, 2018
- Dental HMO benefits for all active employees and retirees for the City and Board of Education
- Vision benefits for all City and BOE employees and retirees for the City and Board of Education

As of June 30, 2023, the amount of prepaid asset in the fund is \$534,152.

The liability for general liability, workers' compensation and group health insurance includes all known claims reported plus a provision for those claims incurred but not reported, net of estimated recoveries. The liability is based on past experience adjusted for current trends and includes incremental claim expenditures. The liability for workers' compensation claims is calculated using actuarial methods. Changes in the reported liability are as follows:

The remaining liability for general liability and workmen's compensation claims of \$49,246,792 is recorded as long-term liability.

#### AUDIT

State Statutes require an annual audit conducted by independent certified public accountants. Portions of these audits are included in the City's Comprehensive Annual Financial Report, and these can be accessed through the City's website,

<http://bridgeportct.gov/content/341307/341403/default.aspx>

#### UNDESIGNATED FUND BALANCE POLICY

---

##### PURPOSE

To maintain a balance of funds within the total unreserved, undesignated fund balance to be available for unforeseen contingencies.

*Definition: Unreserved, undesignated fund balance is the remaining balance available following the reduction for "resources not available for spending" or "legal restrictions" (reservation) and "management's intended future use of resources" (designation).*

##### POLICY

The sum of all components identified for the undesignated fund balance level will be set at no less than 8.00% of annual operating expenditures and other financing uses (transfers out) of the prior audited fiscal year with the annual approval by the City Council. If the undesignated fund balance exceeds 12.00%, the amount exceeding this percentage may be available for appropriation at the discretion of the Mayor with the approval of City Council.

##### RATIONALE

The City of Bridgeport recognizes the importance of maintaining an appropriate level of undesignated fund balance on a Generally Accepted Accounting Principles (GAAP) basis to withstand short-term financial emergencies. After evaluating the City's operating characteristics, its overall financial health, the diversity and flexibility of its tax base, the reliability of non-property tax revenues sources, the City's working capital needs, the impact of state policies regarding tax exempt properties and PILOT reimbursements on City revenues, Brownfield policies, the national, state and local economic outlooks, emergency and disaster risks, other contingent issues and the impact on the City bond ratings of all these factors, the City of Bridgeport hereby establishes goals regarding the appropriate handling and funding of the undesignated fund balance.

The City of Bridgeport's formal undesignated fund balance policy shall be to maintain adequate unencumbered reserves to accomplish the following objectives:

- (1) Have sufficient funds available for appropriation for unforeseen expenditures or unforeseen shortfalls in revenue after adoption of the annual budget; and
- (2) Avoid unexpected spikes in the mill rate caused by non-reoccurring revenues.

##### REPLENISHMENT OF SHORTFALL

The undesignated fund balance of the General Fund may fall below the approved minimum level due to fluctuations between planned and actual revenues and expenditures, other financial emergencies or catastrophic events of an unforeseen nature. When an audited shortfall is reported in the Comprehensive Annual Financial Report (CAFR), it must be rebuilt during the following ensuing fiscal years. This will be achieved by adding an annual appropriation, during the budgeting process of a minimum of 10% of the difference between the fund balance policy level and the undesignated fund balance presented in the latest audited statements.

When dealing with the unanticipated sale of municipal assets, no less than 50% of the “gain on sale of city asset” must be deposited toward the undesignated fund balance until the 12.00% goal has been achieved.

The maintenance of undesignated levels is not to be construed as surpluses or over-taxation by the City. Rather, it is an element of sound fiscal management required for sustaining a high credit rating and financial management flexibility.

## DESCRIPTION OF FUND STRUCTURE

---

The accounts of the City of Bridgeport are organized on the basis of funds and account groups, utilizing a fund structure in which fund activities are aggregated for specific purposes. A fund is a combination of related accounts used to maintain control & accountability of resources that are dedicated to specific activities or objectives. The City of Bridgeport, like other state & local governments, uses fund accounting to ensure appropriate fiscal control and to demonstrate our compliance with accepted accounting principles set forth by the Governmental Accounting Standards Board.

Detailed financial schedules for all the funds described below are not contained within this budget document. This document includes information on the General Fund, as well as some detail on the Internal Service Fund, and Capital Project Funds. Of these funds, only the General Fund is subject to appropriation. Detail on the other funds described below can be found in the City’s Comprehensive Annual Financial Report, prepared by the Finance Department, and can be accessed through the City’s website, <http://www.bridgeportct.gov/finance>. Grateful acknowledgement of the assistance of the Finance Department in providing certain schedules and detail from the 2023 CAFR is noted here, and we have provided attribution for these throughout the budget book, as is applicable.

### GOVERNMENTAL FUNDS

The City of Bridgeport maintains 19 individual governmental funds. The major funds of these 19 are discussed below.

THE GENERAL FUND is the primary operating fund of the city. It is the largest fund which encompasses traditional governmental services and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is primarily supported by the property tax. General Fund revenues are displayed by type in the Revenue Summary section of this budget and by department in the Budget Detail section. Appropriations are also listed by department in the Budget Detail section. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available.

SPECIAL REVENUE FUNDS are used to account for revenues dedicated for a specific purpose. These funds are prescribed by Federal or State program guidelines regarding the distribution or use of revenues.

THE DEBT SERVICE FUND is used for the accumulation of resources for, and the payment of, general long-term bonded debt to be issued in future years.

CAPITAL PROJECT FUNDS are utilized for various construction projects as well as the purchase of the City’s fleet inventory. Capital Project Funds are used to account for the

proceeds of general obligation bonds and other financing sources for the planning, acquisition and construction or improvement of major capital facilities such as new schools and urban renewal projects.

### *PROPRIETARY FUNDS*

ENTERPRISE FUNDS are used to report activities that are financed and operated in a manner similar to a private business enterprise. In the case of the City of Bridgeport, the Water Pollution Control Authority or WPCA, is one such fund which accounts for the activities of the City's two sewage treatment plants, sewage pumping stations, and collection systems for the City of Bridgeport. These funds are covered in the Finance Department's Annual Financial Report, but not in this document.

THE INTERNAL SERVICE FUND was established by Ordinance to account for self-insured health benefit activities of the City, Board of Education (BOE) and all other departments. Governmental Accounting Standards allow for the use of Internal Service Funds for risk financing activities. The Internal Service Fund is a proprietary type fund, which utilizes the accrual basis of accounting. The use of a separate fund for self-insured benefit activities can help smooth the impact of severe claims fluctuations which can now occur in the General Fund. Funding will be provided through the annual General Fund Budget which will separately identify the City, BOE, BOE Grants and Nutrition portions. The amount budgeted will be the amount transferred to the Internal Service Fund. Contributions will also be made by the WPCA and Grants. Employee contributions will be made directly to the Internal Service Fund. Interest and investment income earned by the fund will be used to pay expenses of the fund. Investment of available funds will be made by the City Finance Director and Treasurer in accordance with Connecticut General Statutes.

### *FIDUCIARY FUNDS*

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. These funds are not reflected in government-side financial statements because the resources contained within these funds are not available to provide services for the City's constituents. The City of Bridgeport has four pension trust funds that support the pensions of City employees. The accounting used for fiduciary funds is much like that used for proprietary funds, and again, is covered in some detail in the Finance Department's Annual Financial Report, but not in this document.

***Budget, Finances and Long-Term Planning***

The annual budget serves as the foundation for the City of Bridgeport’s financial planning and control. Budget-to-actual comparisons for FY2023 are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented on RSI-1 and RSI-2 as part of the required supplementary information for the General Fund. <https://www.bridgeportct.gov/sites/default/files/2024-04/ACFR%202023.pdf>

The City ended the June 30, 2023 fiscal year with a positive \$5.7 million annual net change increase in General Fund Unrestricted Unassigned Fund Balance ‘surplus’, along with an additional increase of \$4.0 in Assigned Fund Balance. This was attained in large measure by various Administration actions taken last year, along with an increase in state aid, a large increase in earnings on cash equivalents and a healthy rate of tax collections. The City continues to strengthen general fund balances and other reserves, as recommended by rating agencies, and total General Fund balances are now over 7.5% of the FY23 annual budget level.

Thus, the City is nearing its goal of attaining over 8% of fund balances consistent with its long-term fund balance policy. The City has also taken steps to ensure that it has ample accrual and reserve contingencies to meet any fiscal challenges or possible emergency needs. The City also significantly improved the Financial Net Position of the Internal Service Fund, which now has a positive Fund Balance. The City receives significant state aid for education program purposes as well, various formula state aid for city operating purposes, and state bonded aid for large school

capital project needs. The City is fully funding all required pension obligations as recommended by actuaries or required by statute. In fiscal year 2023, the City contributed an additional \$300,000 investment into the Other Postemployment Benefits (OPEB) Trust, while paying all current annual expenditures for OPEB benefits on a pay as you go basis. Information presented in the financial statements is perhaps best understood from the broader perspective of the specific environment within which the City operates.

The City maintains budgetary controls and Charter and Code regulations that prohibit the City from overspending the annual adopted budget. In addition, the City Code does not allow management to make intra departmental or interdepartmental budget line transfers within the annual budget, except for transfers within specific department budget functional categories, unless such transfers are approved by the City Council. The Finance Director issues monthly financial reports to the Council reflecting all year-to-date revenues and expenditures budget lines versus budgeted amounts. The City has put into place certain long-term planning measures, including the adoption of an annual Five-year Capital Plan adopted annually by the City Council. The City uses multi-year planning for internal purposes for forecasting future budget needs. The City enters into multi-year contracts for various collective bargaining agreements and other services when beneficial with utility providers, certain health care providers, non-profit organizations, and with developers seeking to revitalize City owned sites.

**City Investment Policies**

Eligible investments for Connecticut municipalities are governed by the Connecticut General Statutes. It is the policy of the City to invest funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the City and conforming to all statutes governing the investment of funds. The City's investment of cash and cash equivalents consist primarily of FDIC insured money market investments, funds invested in the State Short-Term Investment Fund ("STIF"), and short-term US Treasury bills. Invested funds earned over \$5 million in interest for the 2023 fiscal year.

Because the Connecticut General Statutes do not specify permitted investments for municipal pension funds, the investment of pension funds is generally controlled by the laws applicable to fiduciaries (i.e., prudent person rule) and the provisions of the applicable plan. In accordance with its policy for pension fund investments, the City seeks a long-term, above-average total return consisting of capital appreciation and income, while placing an emphasis on preservation of the principal.

**Pension Investment Policy**

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the PERS Board by a majority vote of its members. It is the policy of the PERS Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes.

The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

**Rate of Return**

For the year ended June 30, 2023, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense for each pension plan is as follows:

Public Safety Plan A	8.02 %
Police Retirement Plan B	11.36 %
Firefighters' Retirement Plan B	8.11 %

The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**Bridgeport's Major Financial Initiatives**

The City has implemented annual cost-saving initiatives through financial system upgrades, improvement of revenue collection, restructuring of employee benefits, and interim budget restraints on hiring. The City's enhanced Purchasing controls over the past several years have made systems more efficient. The City has also completed technology and software upgrades to improve public customer services including online payment systems, web-based operations and cybersecurity safeguards and added fiber optic connectivity. The major historic economic development initiatives described above are providing a significant boost to the tax base and to budgetary revenues over the next decade. City revenue enhancements include improved tax collections, and a number of new federal grants obtained.

Cash levels for the City are at quite high levels with General Fund cash over \$130 million as of June 30, 2023. A Mayoral anti-blight program is successfully cleaning up the city and large efforts to expand public information is improving outreach to citizens.

## THE BUDGET PROCESS

---

### *MAYOR RECOMMENDED PREPARATION*

City departments begin preparation and documentation processes for the budget in January. The Office of Policy & Management reviews all submitted department requested documents; verifies contractual obligation thresholds, calculates all formula-driven data, and presents a draft budget to the Mayor and selected staff. In accordance with the City Charter, Chapter 9, Section 5(c) the Mayor, no later than the first Tuesday in April of each year, must present to the City Council a proposed budget for the ensuing fiscal year as prescribed in that same section.

### *CITY COUNCIL PROCESS*

The City Council's Budget and Appropriations Committee, under City Council rules, will set a schedule for budget deliberations and in accordance with City Charter, shall hold at least one public hearing before taking final action on the proposed budget and mill rate. The City Council Budgets & Appropriations Committee reports its changes to the Council in the form of a budget amendment resolution. The City Council has the power to reduce or delete any item in the budget recommended by the Mayor by a majority vote of the council members present and voting. It shall have the power to increase any item in said budget or add new items to said budget only on a two-thirds (2/3) affirmative vote of the entire membership of the council. The budget adopted by the City Council shall be submitted to the Mayor not later than the second Tuesday in May of each year. The Mayor shall sign the adopted budget or within fourteen days after adoption of the budget, the Mayor may veto any action taken by the City Council. The veto power of the Mayor shall be that of line-item veto only, and any such veto may be overridden by a two-thirds (2/3) vote of the entire membership of the City Council. If the Mayor shall disapprove any action of the City Council, he shall, no later than the close of business of the fourteenth day, return the proposed budget to the City Council with a statement of objections. Thereupon, the President of the City Council shall call a meeting to be held no later than seven days after the receipt of the Mayor's veto. If the City Council fails to adopt a budget by the second Tuesday in May of any year, the proposed budget of the Mayor shall become the budget of the City for the ensuing year.

As the flow chart indicates, the departments return completed files with updated Goals/Objectives and Service Indicators by the end of January in the new calendar year. The departments are also provided the Capital template for submitting any individual department request of Capital spends anticipated for the upcoming planning fiscal year with an OPM pre-determined submission date. The Capital templates also require the operational impact of any requested spend. OPM collects, edits and vets all submissions prior to consolidation of the organization-wide submissions and then presents them to the Mayor for review and approval prior to the City Council vote and approval.

 BUDGET SUMMARY REVENUE SUMMARY

The primary source of revenues in the City of Bridgeport is property taxes (52.08%). The second largest source of revenue is Intergovernmental Revenue (34.02%)—which includes aid to public schools, Education Cost Sharing, and funding for federal school lunch programming. Education Cost Sharing funds from the state help to provide essential funding for schools in urban areas where student need is great and local funding for schools can strain local budgets.

## INTERNAL SERVICE FUND

---

The City, by Ordinance, established an Internal Service Fund to account for self-insured health benefit activities of the City, Board of Education, and all other departments. Governmental Accounting Standards allow for the use of Internal Service Funds for risk financing activities. The Internal Service Fund is a proprietary type fund, which utilizes the accrual basis of accounting. The use of a separate fund, an Internal Service Fund for self-insured benefit activities, can help smooth the impact of severe claims fluctuations which can now occur in the General Fund. Funding will be provided through the annual General Fund Budget which will separately identify the City, BOE and Nutrition portions. The amount budgeted will be the amount transferred to the Internal Service Fund. Contributions will also be made by the WPCA and Grants. Employee contributions will be made directly to the Internal Service Fund. Interest and investment income earned by the fund will be used to pay expenses of the fund. Investment of available funds will be made by the City Finance Director and Treasurer in accordance with Connecticut General Statutes.

HOW YOUR BRIDGEPORT TAXES ARE DETERMINED

Taxes are assessed as of October 1, they are levied (or collected) on the following July 1 and are due in two installments due July 1 and January 1. Liens are filed on the last day of the fiscal year. Taxes are based on the assessed value multiplied by the current mill rate. One mill is equal to \$1.00 of tax for each \$1,000 of assessment.

Property Tax Mill Rate: 43.45 mills (.04345)

Assessed Value is \$135,000	
Mill Rate: 43.45 mills (.04345)	\$135,000 x .04345 = \$5865.75

Motor Vehicle Mill Rate: 32.46 mills (.03246)

Assessed value is \$6,000	
Mill Rate: 32.46 mills (.03246)	\$6,000 x .03246 = \$194.76

Properties are assessed based on a formula that calculates 70% of their assessed fair market value. The property in Bridgeport was recently reevaluated according to the 5-year assessment schedule mandated by State of Connecticut Statutes.

Revaluation is a mass appraisal of all property within an assessment jurisdiction (i.e., the City of Bridgeport) to equalize assessed values. A city-wide reassessment of real properties is conducted to assign fair market values to all properties. This assessment allows a balancing of the city's real property tax burden among taxpayers.

## BRIDGEPORT AT A GLANCE

---

### *FORM OF GOVERNMENT*

Bridgeport is governed by its City Charter which was adopted by the state legislature in 1907 and revised in 1912 and 1992. The city operates under a Mayor-City Council form of government. The Mayor serves a four-year term. The Mayor sets policy, makes nominations and appointments to boards and commissions, and presides at City Council meetings. In addition, the Mayor acts as official City representative and liaison with various governmental and private agencies and oversees the financial aspects of the City government. Mayoral authority comes from the City of Bridgeport's charter, Municipal Code, and the State of Connecticut General Statutes.

The City Council consists of 20 members elected to two-year terms. Each of the ten council districts is represented by two council members. The City Council holds regular meetings twice per month. Major responsibilities of the City Council include enacting ordinances necessary to govern the City and adopting the budget. Together the Mayor and the City Council oversee the five-line divisions: City Clerk, Water Pollution Control Authority, Libraries, Department of Education, and the Registrar of Voters.

The Chief Administrative Officer (CAO), a mayoral appointee, is responsible for coordinating the management and implementation of operational policies and practices for the Mayor. The CAO is the liaison between the Mayor and the head administrators of the City's departments which include: The Office of Policy & Management, Civil Service, the Fire Department, the Police Department, Planning & Economic Development, Finance, Public Facilities, Health & Social Services, Labor Relations, the City Attorney, Weights & Measures, and Information Technology.

The only elected board in the City, aside from the City Council, is the Board of Education. This board consists of nine members elected to staggered four-year terms and meets once a month. In addition, there are 18 appointed boards and commissions whose members are volunteers who have been appointed by the Mayor. These consist of the following: Board of Assessment Appeals, Board of Public Purchases, Bridgeport Redevelopment Agency, Cable Advisory Board, Civil Service Commission, Commission on Aging, Ethics Commission, Fair Housing Commission, Fair Rent Commission, Fire Commission, Harbor Management Commission, Historic Commission No. 1, Housing Authority, Housing Site Development Agency, Parks Commission, Planning & Zoning Commission, Police Commission, Port Authority Commission, Stratfield Historic District Commission, Water Pollution Control Authority Commission and the Zoning Board of Appeals. Additionally, the City appoints members to serve on the boards of regional planning agencies including the Connecticut Metropolitan Council of Governments (METROCOG) and Greater Bridgeport Transit.

### *GEOGRAPHY*

Bridgeport is Connecticut's largest city with a population estimated at 148,333 residents. Located along Long Island Sound at the mouth of the Pequonnock River, the city has an area of 19.4 square miles. Bridgeport experiences warm to hot and humid summers and cold, snowy winters. These seasonal extremes are somewhat moderated by Long Island Sound. This results in a lower average temperature in summer and moderate snowfall, as compared to our neighbors inland. The city receives 41.7 inches of precipitation and around 25.6 inches of snowfall in an average year. The snowiest winter on record occurred in 1996 when Bridgeport received 76.8 inches in total accumulation. Bridgeport is located on Long Island Sound and is bordered by Fairfield, Connecticut to the West, Stratford, Connecticut to the East, and Trumbull, Connecticut to the North.

*COMMUNITY PROFILE*

Bridgeport was originally a part of the township of Stratford. The first recorded settlement here was made in 1659. It was called Pequonnock until 1695, when its name was changed to Stratfield, due to its location between the already existing towns of Stratford and Fairfield. In 1800 the borough of Bridgeport was chartered and in 1821 the township was incorporated. The city was not chartered until 1836. The city's location on the deep Newfield Harbor supported shipbuilding and whaling endeavors in the mid-19<sup>th</sup> century. Later, rapid industrialization and the presence of the railroad made Bridgeport an ideal manufacturing center producing Bridgeport milling machines, saddles, corsets, carriages, brass fittings, sewing machines and ammunition. By 1930, Bridgeport was an industrial center with more than 500 factories and a thriving immigrant population.

 BUDGET SUMMARY BRIDGEPORT IN CONTEXT

In the early 21st century, Bridgeport is rebounding from a loss of jobs and population and is transitioning into a role as both a bedroom community for New York City, and as oasis of relatively low-cost housing in the otherwise prohibitively expensive Fairfield County. Located just 60 miles from New York City and 60 miles from Hartford, CT, Bridgeport is accessible via a variety of transportation modes, it is ideally suited to families seeking a refuge from the high cost of living in lower Fairfield county.

Bridgeport supports two large hospitals—St. Vincent’s and Bridgeport Hospital. It is located on the Metro-North commuter line, which offers daily service to New York City, and regional service to the shoreline of Connecticut and to the Waterbury area. Bridgeport is also a stop on Amtrak’s train lines, including the high-speed Acela service. Ferry service to Port Jefferson, Long Island is offered from Bridgeport’s harbor, and local and interstate bus service is also available. The port of Bridgeport is one of three deep-water ports in the state. Bridgeport owns Stratford’s Sikorsky Memorial Airport. Bridgeport’s location in the middle of a confluence of highways—among them Interstate 95, the Merritt Parkway, Route 8 & Route 25, and Route 1 connect the City to many other regions. Institutions of higher learning housed in the City include The University of Bridgeport, Housatonic Community College, St. Vincent’s College, and Bridgeport Hospital School of Nursing. The Bridgeport School system educates more than 20,000 children, making it the second largest school system in the state.

The Total Mortgage Arena and the Klein Memorial Auditorium host regional and national performances of musical acts and sporting events. Regional theater is in evidence at the Downtown Cabaret Theatre and the Bridgeport Theatre Company. Additionally, the City of Bridgeport is home to 45 parks which encompass 1,330 acres of open space.

**DEMOGRAPHICS AND ECONOMICS**

Bridgeport is Connecticut’s largest city with a population estimated at 148,377 residents. The City, surrounding towns, and the State are still recuperating from the effects of the national economic downturn, but all are starting to show a small improvement in their unemployment rate. As of June 30, 2023, the unemployment rate for the City of Bridgeport was 6.1%, down from 7.7% from the prior year due to strong economic performance in the region. Connecticut’s overall unemployment rate decreased to 4.0% from 5.3% in the previous year.

Per the State of Connecticut statute, every town, municipality is required to implement full, real estate property revaluation, every five years. The City of Bridgeport implemented full real estate revaluation on the October 2020 Grand List. The FY25 Mayor Recommended Real Estate and Personal Properties mill rate of 43.45 maintains the FY23 mill rate of 43.45 mills.

The FY25 Mayor Recommended Library budget is based on the November 2017 voters referendum that passed and mandates the appropriation of Library Department 1.30 mills of the total collectable FY25 appropriated real estate, personal properties and motor vehicles mill rate value.

Connecticut’s large cities are regional hubs for jobs, health care facilities, colleges and universities and cultural centers. But Connecticut’s cities experience poverty rates that are twice as high as the state average. They are home to more than half of Connecticut’s homeless population, and we educate a student population that is multi-ethnic & lingual, who are poorer than their neighbors in commuting suburbs. In Connecticut, 5.2% of children speak a language other than English at home, in Bridgeport 13.4% of children speak a language other than English at home. Connecticut’s cities suffer from shouldering a disproportionate share of tax-exempt infrastructure, and so the property tax rate for residents ends up being higher than in neighboring suburbs. The cities of Connecticut struggle to balance budgets, provide services, and maintain services while keeping life affordable for our residents. This section of the book looks at Bridgeport in the context of our peer communities to offer a more complete view of our place among our municipal peers.

Our services and employment opportunities mean that our employers support many families who do not reside within our borders.

\* The \$105,000 Project Manager position is being transferred from the Mayor's recommended budget into the Chief Administrative Office budget account #010106000-51000 at a lower salary of \$95,448.

\*\* The Legislative intent is not to fund the \$95,448 Project Manager position that was recommended by the Mayor under Public Facilities Administration budget account #01300000-51000; rather, use \$83,500 of that allocation to fund Mayor's Aide (Property Manager) position in the Mayor's Department in FY25. The Mayor's Aide Property Manager will be responsible for the management and disposition of city owned properties.

FY 2024 – 2025 SHORT TERM GOALS (To be achieved within one (1) year or less):

1. Implement policies and initiatives throughout City government that improve the City's response to constituent needs and requests and increase the level of customer service with those who interact with City departments on a daily basis.
2. Focus efforts within each department on addressing quality of life issues including, but not limited to, blight and cleanliness, public safety, street conditions, and more.
3. Improve the quality and affordability of housing in Bridgeport through the development of new quality and affordable housing in the city and the implementation of the new Fair Rent Office and Commission.
4. Foster an environment in Bridgeport that supports our small and minority businesses by conducting a new city-wide disparity study focused on racial, gender, and other disparities within city purchasing, as well as through the implementation of small business support programs through the SDBE Office.

FY 2024 – 2025 MEDIUM-TERM GOALS (To be achieved within 1-5 years):

1. Promote economic development throughout the City, with specific goals to increase Bridgeport's housing stock (both market-rate and affordable), bring new industries to Bridgeport, support and expand the existing business community in the city, and work towards making Bridgeport the arts and entertainment capital of Connecticut.
2. Promote green initiatives throughout the City of Bridgeport and reduce the city's carbon footprint by promoting sustainability throughout city facilities and operations, preserving public parks and creating open space, and facilitating efforts to make Bridgeport a hub for clean energy production.
3. Hold the line on taxes by maintaining balanced budgets and strong credit ratings, while streamlining city services to be both effective and efficient.

**FY 2024 – 2025 SHORT TERM GOALS (To be achieved within one (1) year or less):**

1. Strategically apply for formula and competitive funding for priority projects and programs with a focus on development, public safety, blight, and green initiatives. (MG3)
2. Strive to increase grant submittal rate by 20% through more proactive application efforts, partnerships, and collaborations. (MG1)
3. Continue to ensure that processes and procedures are in place and adhered to for compliance with Federal, State and local requirements. (MG1)

**FY 2023 – 2024 GOALS STATUS UPDATE:**

1. Strategically apply for formula and competitive funding for city priority projects and programs with a focus on COVID-19 pandemic recovery funding, public safety, blight and green initiatives. ***The Central Grants Department submitted 26 applications to support city projects and programs. In addition to the 26 applications submitted there were 31 pending applications from FY 2022-2023. Of these 31 pending applications, 14 were awarded, 12 remain pending, and 5 were denied. Of the 26 applications submitted 16 were awarded, 7 remain pending, and 3 were denied.***
2. Strive to improve grant submittal rate by 20% through more focused application efforts and collaborations. ***Staff participated in numerous NOFO webinars and informational sessions provided by various federal and state stakeholders. The grant submittal rate did not increase as we decided to submit larger proposals which require much more effort and time.***
3. Continue to ensure that processes and procedures are in place to assure compliance with Federal, State and local requirements. ***Staff routinely participated in training sessions and kept apprised of changes in legislation. There were zero grant compliance issues this fiscal year.***

**FY 2023 – 2024 ADDITIONAL TARGETED ACCOMPLISHMENTS:**

1. In FY 2024, we were one of 88 awardees nationwide to receive funding under the Environmental Protection Agency’s Environmental Justice Government-to-Government grant program. The award, which totals \$1,000,000, will be used to implement a “Complete and Safe Streets” makeover of a 0.5-mile stretch of East Main Street which has seen a disproportionately high number of pedestrian/cyclist accidents and fatalities. New amenities on this section of East Main Street will include improved infrastructure for pedestrians and/or cyclists as well as “green

infrastructure” including plantings and/or bioswales. The project will be implemented in partnership with Groundwork Bridgeport and the broader East Side community through a series of community-input sessions aimed at creating a resident-led process.

This project addresses several of the Mayor’s Goals for 2023-2024, particularly his pledge to promote green initiatives and address quality-of-life concerns. The ultimate goals for this project are to increase safety, promote mode shifts to walking and cycling, improve the climate resiliency of the neighborhood, and address environmental justice concerns in a neighborhood that has been heavily overburdened by the effects of high-speed automobile traffic. It dovetails with several other recent grant awards including our \$800,000 CT DOT Community Connectivity grant to improve crosswalks in the East Side, and our \$250,000 CT DEEP Climate Resiliency planning grant.

2. Our largest award of the year was the \$22.5M award that we applied for during Round 3 of the CT DECD Community Investment Fund 2030 grant program. This grant will be used to fund the demolition of the decommissioned PSEG coal-burning power plant in the South End. The PSEG plant is a stark reminder of the numerous environmental injustices that Bridgeport residents have faced for decades. Demolishing and remediating the plant doesn’t just address the Mayor’s goal to reduce blight – it clears the way for new mixed-use, mixed-income, inclusive development that will promote economic growth and increase Bridgeport’s housing stock. It will also reconnect South End residents with a huge swath of the neighborhood’s waterfront, improving residents’ quality-of-life and making the neighborhood greener and more climate resilient.

Applying for this grant was a collaborative effort bringing together internal staff from the Mayor’s Office, the Office of Planning and Economic Development, and our team at Central Grants, along with our State legislative delegation and the Governor’s Office. The success of this proposal gives us a blueprint to use when applying future economic development projects through the CT DECD, including future rounds of the ever-exciting Community Investment Fund.

3. We also received a \$2,255,000 grant from Round 3 of CT DECD’s Connecticut Communities Challenge. This grant will be used to fund placemaking efforts at the “Post Office Square” site in Downtown Bridgeport. Funds will be used to cover the costs of hooking up the site to water and electricity, purchasing and installing pop-up storefronts, creating food truck hookups, and installing a restroom. The result will be a fully moveable outdoor community space and small business incubator, activating a disused section of City-owned land in the heart of Bridgeport’s Downtown.

This project aligns with the Mayor’s goal to foster a supportive environment for small and minority-owned businesses by creating a vibrant new hub for pop-ups, events, and food trucks in direct proximity to some of Downtown’s most exciting new housing developments. The project also effectively creates a new park space in a neighborhood that is somewhat underserved when it comes to accessible public greenspace.

\* The one additional Fire Fighter position that was proposed in the mayor's budget has been eliminated because it exceeds the department's staffing level, per the union contract agreement.

\*\* The Legislative intent is to fund one additional Fire Inspector position beyond the Mayor's proposed headcount of ten(10) Fire Inspector positions. The additional Fire Inspector position will help the department with much needed inspections in the department.

\*\*\* The Legislative intent is to increase the salary of the Fire Marshall position by \$17,000 beyond the Mayor's proposed amount in order to hire and retain employees in that position and reduce the turnover rate.

\*\*\*\* The Legislative intent is not to fund the Clerical Assistant position that was proposed in the Mayor's budget; rather the funds were appropriated towards the funding of the highly needed Fire Inspector position.

\*\*\*\*\* The Legislative intent is to transfer the \$91,339 Accountant (step 6) position into Engineering Department account #01385000-51000 and fund another accountant position in the amount of \$81,312 (step 1) under Public Facilities Administration budget account #01300000-51000.

\*\*\*\*\* The salaries, fringe benefits of the Special Project Coordinator (Sustainable Energy Manager) position and the Part-Time Assistant Special Project Manager (Assistant Energy Manager) positions are being funded with the "NIPS Bottle Redemption revenues that the city receives under (Comptroller: NIPS Revenue account #01010000-41205).

NIPS revenue receipts are supposed to be used for clean earth, sustainable energy and sewer catch basins clean up, per State Legislative intent.

\*\*\*\*\* The newly funded Part-Time Clerical Assistant position ( 19 hrs. per week) will be responsible for parking ticket appeals, as well as minutes of the Police Commission. In the past these two functions were executed by sworn police officers at odd hours and that resulted in overtime pay to the officers.

1. Continue with trends in reduced energy consumption and expenditure levels. (MG6)
2. Work with other officials to develop improved recycling structure. (MG1, MG6)

FY 2023 – 2024 SHORT TERM GOALS STATUS UPDATE:

---

1. Continue to follow protocol and provide effective procedures as well as rapid response by trades and custodial services to continue safe operations during Covid pandemic. **Ongoing effort. Department has been at forefront of City's response, as office partitions were constructed, additional custodial services provided, and worker health monitoring all continued throughout the year, with employee quarantines, when necessary, along with continued monitoring and schedule adjustments as warranted, in accordance with all CDC and CT Health Department protocol.**
2. Continue to help provide parks, courts and restroom improvements throughout City to provide enhanced safe outdoor recreation opportunities during pandemic and after. **McGovern Park developed, Nanny Goat courts done, Knowlton Park bollards installed, Newfield Park restrooms rebuilt, Newfield Boat Launch reconstruction in permitting phase, Went Field playground and handball court – new installations, Seaside Park West Beach – new playground, Perry Memorial Arch roof planned spring 2024.**
3. Continuing improvements to City facilities. **Multiple projects ongoing. Police HQ parking decks complete; renovated spaces for new Health Clinic and Veterans locations; City Hall Front Entrance and ADA Ramp complete, City Hall offices flooded by tropical storm re-designed; Klein Memorial roof and masonry complete, major new AC replacement designed and ordered; Ralphola Taylor roof replaced; 485 Howard Ave renovation complete; Newfield Park restroom rebuilt; EOC boiler replaced; Wonderland Roof and doors; Fire HQ security fencing and gates installed; Transfer Station railings and wall rebuilt; Fire station improvements to kitchens and quarters.**
4. Replace and repair City building parking decks and roofs to address water infiltration which leads to weakened structures and potential health hazards. **Police HQ parking decks rebuilt, need funding for walls and windows next; Sylvan St PAL complete; Evergreen St Fire training facility new roof installed; Klein roof and masonry project complete, major new A/C unit ordered for late summer 2024 delivery; Kennedy Stadium roof replaced; Wonderland of Ice roof in progress; Ralphola Taylor roof replaced.**
5. Rebuild offices in City Hall basement destroyed by flooding from tropical storm, including waterproofing building to prevent future flooding. **Meeting goal. Initial design for re-build of offices under review, construction expected spring-summer 2024.**
6. Repave City parking lots to improve drainage and safety issues at Seaside Park, City Hall, and Wonderland of Ice. **Meeting goal, ongoing. City Hall and visitors lots projected end of FY24, then with continued funding onto Seaside and Wonderland according to professional evaluation of conditions and priorities.**
7. Continue to provide solid waste collection and disposal in most cost-effective and environmentally responsible manner available. **Meeting goal. See Sanitation section for full discussion.**

---

FY 2023 – 2024 MEDIUM-TERM GOALS STATUS UPDATE:

1. Continue crackdown on illegal dumping through use of surveillance cameras and increased law enforcement. **Meeting goal, ongoing, continuous effort. From July-early January, illegal dumping cleanup was performed on 107 days, devoted across 1734 sites, picking up 639 tons of bulk trash, 2 pounds of metal and 1242 tires. Working with Police Department, four additional cameras have been installed in strategic locations which has reduced the amount of illegal dumping at these locations by 70%. Additional cameras installed in strategic locations improving access to tip-lines, resulting in citations and helpful news coverage. Illegal tire dumping is a particularly expensive issue for Public Facilities, with volumes of tires that must be generated by commercial operations, and crackdown there is among priorities – Disposal fees alone have been more than \$80,000 in recent years, as very high volume remains (one 40-yd container per week). Also, continuing to work with Health Dept to cite blighted properties and with OPED and OPM to maintain them if City takes over.**
2. Revise Transfer Station rules to hold commercial visitors responsible as such and charging them appropriately. **Ongoing process. Reviewing and comparing other municipalities to create new fee structure to present to Council. Will likely need revised ordinances through cooperation with City Council, Mayor's Office and City Attorney. Added resident lane to improve wait times and make access easier.**
3. Enhance operations of Licenses and Permits, updating fees and Ordinances as needed, to improve responsiveness of outside agencies cutting into city streets. **Meeting goal, ongoing effort. New ordinance and updated fees. Two new positions were established in Permits Office for improved enforcement, along with new organization, supervision and management by City Engineer.**
4. Work with other key City departments to re-establish vigorous enforcement of alternate-side of street parking to provide better access to the curb for street sweeping, street vacuuming, snow removal and overall cleanup efforts. **Ongoing effort. Police resources are scarce with high demand. Enforcement of alternate-side parking is critical to efficient sweeping and avoiding merely running up the middle of the street.**
5. Continue to upgrade vehicle and equipment fleet, looking for opportunities to introduce more electric vehicles into regular use. **Multi-year effort. Pursuing grants for electric vehicles and equipment. Examining whether electric service in new Garage and Vehicle Storage Building are sufficient. Also examining risk of catastrophic fire with indoor charging.**

---

FY 2023 – 2024 LONG-TERM GOALS STATUS UPDATE:

1. Continue trends in reduced energy consumption and expenditure levels. **Continued to work with Finance Dept and private consultant to identify best available rates for both electric generation and natural gas. Went with third party for electrical generation and locked in natural gas.**
2. Work with other officials to develop improved recycling structure. **Goal may be unattainable as it is a problem beyond the control of local officials or departments. Global markets have reduced the value of many commodities below zero. What had been a revenue to the City of approximately \$129,000 shifted to an expense of approximately \$535,000 for FY21 and has remained at or above that level since. Just as rates were improving in FY22, they skyrocketed up to the highest levels ever – more than \$99/ton where they remained for most of FY23, continuing at near-record levels for FY24, resulting in the biggest budget ever in FY24. If the City were allowed to treat some recyclables as solid waste until the market returns, that would help our expenses. But that would violate statutes, and changing those statutes is a non-starter with CT DEEP. Have met with municipal leaders from towns participating in interlocal group and resolved that no proposal that would reduce recycling costs for the towns would be supported at the state agency level.**

MUNICIPAL GARAGE

---

MISSION STATEMENT

The Municipal Garage has some responsibility for all City Vehicles. The entire fleet is registered through the Garage while maintenance is divided. The Garage maintains all City vehicles except for those utilized by the Police and Fire departments. The Garage schedules and performs routine maintenance to assure fleet safety, performs extensive repairs in-house, supervises repairs performed by outside vendors and maintains an inventory of parts to service vehicles and equipment. We operate within all State and Federal Standards.

The Garage performs these functions, totaling more than 3600 work orders annually on more than 700 vehicles and pieces of equipment, with one manager, one foreman, six mechanics, one welder, one servicer, one inventory-keeper and one clerk.

FY 2024 – 2025 SHORT TERM GOALS (To be achieved within one (1) year or less):

1. Initiate the use of 360-degree camera systems to capture instances of missed trash pickup, blight, and unsafe driving for the entire Sanitation and Recycling fleet, improving operational efficiency, adding accountability for accidents, while limiting liability, leading to cost savings. (MG1, MG3, MG7)
2. Upgrade GPS tracking capabilities to identify and reduce vehicle idling in adherence to the Vehicle Idling Policy. Our goal is to ensure a sustained reduction in exhaust emissions and fuel consumption by monitoring GPS reports and enforcing a strict no-idling policy. (MG6)
3. Establish two permanent part-time Fleet Mechanic positions to reduce the cost of and need for external repairs. These mechanics will also be responsible for the repairs of anti-blight equipment and city-cleaning machinery. (MG3, MG7)
4. Continue training program for employees involving safe operation of equipment, helping to prevent accidents and injuries, and to create a safer work environment for all staff members.
5. Repower older Tennants (litter vacuums) to help clean streets, parks, and other public spaces. (MG3)
6. Revise the City-owned vehicle policy to establish clear guidelines and measures to ensure responsible use and greater employee accountability for the usage of City-owned vehicles.

FY 2024 – 2025 MEDIUM-TERM GOALS (To be achieved within 1-5 years):

1. Establish a truck washing station to help reduce maintenance expenses and extend the operational life of City equipment.
2. Reduce parts inventory by auctioning old parts to generate funds that can be reinvested into acquiring new parts and updating inventory.
3. Replace fleet vehicles that do not meet EPA emission standards, focusing particularly on diesel equipment which is required to be equipped with emissions control systems. We intend to facilitate their replacement through a Volkswagen-emissions penalty grant for which we will reapply. (MG6)
4. Continue to lease additional Ravo vacuum sweeper that will help promote public

health by keeping the streets clean from litter, leaves and dirt. Currently the Ravo vacuum sweeper has reduced operating costs by eliminating the need for dump truck driver for offloading, freeing that driver for deployment elsewhere. (MG3).

5. Initiate trade-in of all Ford Fusion vehicles (discontinued by Ford) for Hyundai Elantras. This transition includes a package with 3 years of company-supplied oil changes and tire rotations, which helps to reduce labor and equipment costs and contributes to a more cost-efficient and sustainable vehicle fleet.

FY 2024 – 2025 LONG-TERM GOALS (To be achieved in greater than 5 years):

---

1. Continue gradual replacement of heavy-duty trucks that were built before 2009 that do not meet EPA emission standards. All trucks built after 2009 must be equipped with emission controls systems such as catalyzed diesel particular filters (DPF), which helps reduce harmful nitrogen oxide (NOx) emission pollution. (MG6)
2. Expand the garage to install a drive-thru lift for heavy trucks, contributing to improved operational effectiveness. Construct a satellite repair station within the Vehicle Storage Building to increase in-house repair capabilities, reduce cost and reliance on external repairs, and improve efficiency when repairing multiple large equipment without disrupting other operational activities.
3. Acquiring electric vehicles and other eco-friendly equipment through grant assistance awards to ultimately reduce both fuel costs and environmental waste. (MG6)

FY 2023 – 2024 SHORT-TERM GOAL STATUS UPDATE:

---

1. Purchase electric vehicles and other eco-friendly equipment through grant assistance awards in order to reduce fuel costs and reduce environmental waste. (MG6)  
***Not yet met. Currently engaged in extensive grant searches in collaboration with the Sustainability Manager to identify suitable grants that align with our needs. Additionally, efforts are ongoing for strategizing the upgrade of buildings that will meet both electrical code standards and adequately support EV (Electric Vehicle) power supply and housing.***
2. To utilize existing vehicle GPS tracking capabilities to identify and reduce vehicle idling. (MG3)  
***Meeting goals. Each foreman, supervisor, and manager has been given access to their department's fleet to monitor, identify and mitigate vehicle idling.***
3. Initiate use of 3<sup>rd</sup> Eye Fleet Management System for the Sanitation and Recycling fleet to record missed trash pickup, blight, and unsafe driving. (MG3)  
***Efforts are ongoing. Met with current GPS company to upgrade our GPS software to make it compatible with 360-degree cameras, which will streamline our operations and eliminate the need for two separate companies, and thus reduce costs.***
4. Establish a part-time permanent Fleet Mechanic position to reduce the cost of outside repairs.  
***Not yet met. Will be requested for FY25.***

FY 2023 – 2024 MEDIUM-TERM GOALS STATUS UPDATE:

---

1. Establish a truck washing station to help reduce maintenance expenses and extend the operational life of City equipment. ***Achieving goal. Assigned a full-time employee to wash equipment as an interim measure until the Producto building demolition is complete, at which time discussions and planning for the construction of the new station can take place.***
2. Repower older Tennants (litter vacuums) to help clean streets, city parks, and other public

spaces. **Efforts Ongoing. Recently purchased two new engines for 2014 Madvacs, which is significantly less than purchasing completely new vehicles at \$65,000 each.**

3. Lease additional Ravo vacuum sweeper that will help promote public health by keeping the streets clean from litter, leaves and dirt. Currently the Ravo has reduced operating costs by eliminating the need for dump truck driver for offloading. **Goal met -- 2 sweepers procured in the past year.**
4. Complete the trade-in of all Ford Fusion vehicles (discontinued by Ford) for Hyundai Accents, in order to reduce labor and equipment costs. **Not yet met. Hyundai discontinued the Accent model. Currently renegotiating deals for the Elantra model.**

FY 2023 – 2024 LONG-TERM GOALS STATUS UPDATE:

1. Continue gradual replacement of heavy-duty trucks that were built before 2009 that do not meet EPA emission standards. All trucks built after 2009 must be equipped with emission controls systems such as catalyzed diesel particular filters (DPF), which helps reduce harmful nitrogen oxide (NOx) emission pollution. (MG4)

FY 2024- 2025 SHORT TERM GOALS (Achieving in 1 year or less):

1. Continue crackdown on blighted properties and illegal dumping, working with Police and other departments to promote clean, safe public spaces. (MG3)
2. Add additional full-time positions to provide additional workforce for mad-vacs, sweepers, snow removal, illegal trash removal, brush and leaf pickup, potholes/patching and all the operations Roadway performs daily, but is regularly left with fewer than a dozen per day due to assignments in other divisions. (MG3)
3. Continue to work with central administration to gain increased parking enforcement and Police involvement to improve efficiency of street sweeping efforts. (MG3)
4. Establish a culvert cleaning system and schedule, to help relieve local flooding and improve safety; will need support and cooperation from local residents and businesses. (MG3)

FY 2024 - 2025 MEDIUM-TERM GOALS (Achieving within 1-5 years):

1. Continue employee development through Public Works Academy covering: Professional & Communication Skills, Operational Safety, Road Fundamentals, Work Zone Safety/Flagger Certification, Chainsaw Safety & Storm Clean Up, Winter Operations and Safe Snow Plowing.
2. Additional training for supervisors on Bridgeport 311 so response time is faster and requests are better directed to appropriate department. (MG1)
3. Continue development of Management Team through Road Master Program covering Basics of a Good Road, All About Asphalt Pavements, Principles of Drainage for Local Roads, On the Job Safety and OSHA Regulations for the Local Road Personnel, Work Zone Safety for Maintenance Operations for Local Roads, Planning and Managing Local Road Snow and Ice Control Activities, Defensive Driving for Public Works, and Backhoe Safety and Operations.
4. Increase preventative maintenance of roads and streets. Continue and expand crack-sealing, ultra-thin and patch crews, thereby reducing the need for full repaving over time. (MG1, MG3, MG7)
5. Look for opportunities to add electric and low-emissions vehicles and equipment. (MG6)
6. Add more public garbage cans that feature advertising, using automatic compressors where possible, bringing in revenue to help defray the net cost of additional pickups, while providing for cleaner city. (MG3)
7. Continue seasonal bulk trash pick-up pilot program started April-Sept 2023, and make it regular and annual, helping to reduce illegal dumping and reduce blight. (MG3)

FY 2023 - 2024 SHORT TERM GOALS STATUS UPDATE:

1. Continue crackdown on blighted properties and illegal dumping, working with Police and other departments to promote clean, safe public spaces. **Meeting goal, ongoing, continuous effort. From July-early January, illegal dumping cleanup was performed on 107 days, devoted across 1734 sites, picking up 639 tons of bulk trash, 2 pounds of metal and 1242 tires. Working with Police Department, four additional cameras have been installed in strategic locations which has reduced the amount of illegal dumping at these locations by 70%.**
2. Dedicate more seasonal employees to paper picking and illegal pickup, thereby freeing up full-time employees for better efficiency performing core Roadway functions. **Partially meeting goal. Paper-picking and litter collection were performed from July-Dec, collecting more than 156 tons, but seasonal employees were available less than planned due to lack of applicants. Supplementing City employees with four workers from outside agency providing second-chance opportunities.**

3. Additional full-time positions to provide extra workforce for mad-vacs, sweepers, snow removal, illegal trash removal, paper picking, brush and leaf pickup, potholes/patching and all the operations Roadway performs daily, but is regularly left with fewer than a dozen per day due to assignments in other divisions. ***Partially meeting goal, multi-year process of getting full-time workforce restored to levels needed to perform basic functions. Department has been requesting five new Maintainer I's but received none. Department continues to devote significant resources daily to non-Roadway functions, especially Sanitation/Recycling, resulting frequently in having only 6-9 Roadway employees devoted strictly to core Roadway functions.***
4. Continue to work with central administration to gain increased parking enforcement and Police involvement to improve efficiency of street sweeping efforts. ***Ongoing effort. Police resources are scarce with high demand. Enforcement of alternate-side parking is critical to efficient sweeping and avoiding merely running up the middle of the street.***
5. Continue to increase productivity and efficiency of pothole repair by utilizing Durapatcher which can repair twice as much as our normal pothole crew on a daily basis, providing better street maintenance for improved economic development and public safety. ***Partially meeting goal. Ongoing effort. Machine tends to require experienced employees to operate effectively. Over-reliance on seasonals and multiple demands on existing workforce can result in inexperienced operators for Durapatcher, with less effective mixing and more frequent breakdowns. Need more consistent refill of vacant positions along with ability to devote Roadway personnel more consistently to Roadway activities.***
6. Look for opportunities to add equipment to fleet that are electric, helping to reduce emissions. (MG3). ***Currently strategizing on how to update facilities to ensure they are up to electrical standards and can support electric vehicles.***

 FY 2023 – 2024 MEDIUM-TERM GOALS STATUS UPDATE:
 

---

1. Continue employee development through Customer service training, Public Works Academy covering: Professional & Communication Skills, Operational Safety, Road Fundamentals, Work Zone Safety/Flagger Certification, Chainsaw Safety & Storm Clean Up, and Winter Operations and Safe Snow Plowing. ***Partially meeting goal as we continue to provide training every year such as Work Zone Safety/Flagger Certification, Winter Operations and Snowplow Training.***
2. Continue development of our Management Team through Road Master Program covering Basics of a Good Road, All About Asphalt Pavements, Principles of Drainage for Local Roads, On-the Job Safety and OSHA Regulations for the Local Road Personnel, Work Zone Safety for Maintenance Operations for Local Roads, Planning and Managing Local Road Snow and Ice Control Activities, Defensive Driving for Public Works, and Backhoe Safety and Operations. ***Partially meeting goal. Supervisors continue to take classes to develop their knowledge on Public Works activities and Safety Regulations.***
3. Continue to cross-train employees on all equipment where applicable to ensure the safe operation of equipment, to prepare employees for promotion and to better utilize employees and equipment. ***Meeting goal but workforce limitations continue to cause shortages and need to constantly send employees to other divisions in Public Facilities.***
4. Additional training for supervisors on Bridgeport 311 so our response time is faster and proper department receives requests. ***Ongoing due to recent supervisors retiring and training new supervisors.***

ROADWAY MAINTENANCE PROGRAM HIGHLIGHTS

---

**FY 2022-2023 & 2023- 2024 ADDITIONAL TARGETED ACCOMPLISHMENTS:**

1. Bulk Pickup Program successfully launched April 1- Sep 30, 2023, with approximately 3000 pickups by appointment, totaling more than 900 tons that may have otherwise been dumped illegally.
2. Largest Paving Program in recent history, with \$10M devoted to more than 200 streets and 30 lane-miles.
3. For illegal dumping in FY23, a total of 1734 sites, consuming 107 man-days, resulting in 639 tons of bulk, 2 tons of metal and 1242 tires. Bulk program helped alleviate this activity somewhat, with totals in FY22 of 4158 sites but 432 tons; so FY23 tons were up, but with far fewer sites.
4. Leaf collection FY23: total of 856 man-days to collect 1075 tons of leaves over 254 days.
5. Street sweeping performed on 294 days, consuming 1278 man-days, covering 23,145 miles and removing 4100 loads of debris.
6. Potholes FY23: 11,874 sites over 185 days, consuming tons of material and 490 man-days.
7. Patched 43 sites, using 10 man-days and .03 tons of material. Patching activities down significantly due to largest paving program in recent City history.
8. Continued to provide manpower to Sanitation/Recycling, Transfer Station, and other divisions to help with insufficient services in those activities. Frequently fewer than ten Roadway employees are available for actual Roadway duties each day.

1. Work with other key City departments to re-establish vigorous enforcement of alternate-side of street parking to provide better access to the curb for street sweeping, street vacuuming, snow removal and overall cleanup efforts. **Partially meeting goal. Alternate-side enforcement dependent on availability of BPD; Parking Enforcement back in Public Facilities helps provide some improvement. Relatively light snowfalls also help relieve pressure.**
2. Continue training employees in safe operation of snow removal and operating snow equipment. **Meeting Goal. Classroom and road-training conducted every year prior to winter. Returned to and won CASHO (Connecticut Association of Street & Highway Officials, Inc.) statewide training program fall 2023.**

MISSION STATEMENT

Sanitation Division provides weekly curbside collection of all general household solid waste in the City in compliance with all applicable City, State and Federal health, environmental and safety regulations.

The Recycling Division removes recyclable materials from the solid waste stream through collection and transportation to a regional intermediate processing center as prescribed by City ordinance. Recycling provides bi-weekly curbside household recycling collection of glass, metal food containers, newspapers, HDPE & PETE plastics while also providing recycling of tires, white metal goods and batteries through the Transfer Station. In addition, Recycling removes and processes leaves and tree trimmings for composting and use in City landscaping projects. All services are provided with strict adherence to all applicable Environmental Protection Agency & Department of Environmental Protection regulations.

The Sanitation/Recycling Division accomplishes these tasks with 31 total full-time positions: one manager, one foreman, 2 supervisors and 27 maintainers. There are 12 daily sanitation routes and 4 daily recycling routes, with each route performed by a crew of two.

FY 2024 – 2025 SHORT TERM GOALS (Achieving in 1 year or less):

1. Continue to dispose of municipal solid waste in the most cost-effective and environmentally-responsible manner possible, while working with elected officials in developing policies to reduce recycling costs, reduce solid waste tonnages and still avoid increased costs overall. (MG3, MG6)
2. Reduce number of open routes by adding to roster of Maintainer III's, thereby reducing wear on workers, reducing lost time, and increasing available drivers for snow events while also returning Roadway workers back to Roadway for that division's core functions. (MG3)
3. Install new signage at condos for dumpster rules. (MG3)
4. Update condo management contacts.

FY 2024 – 2025 MEDIUM-TERM GOALS (Achieving within 1-5 years):

1. Re-evaluate all refuse routes to ensure balance required by collective bargaining agreement (maximum 12 tons per route) while also reducing number of daily refuse routes from twelve to eleven. (MG1)
2. Re-examine condo pickup schedules, deployment of dumpsters and rollout carts to improve recycling participation at condos. (MG1)
3. Continue to add front loader dumpsters in areas where they can be utilized, including condos, to help improve efficiency. (MG1)

FY 2024 – 2025 LONG-TERM GOALS (Achieving in greater than 5 years):

1. Implement educational campaign to raise awareness among residents about proper recycling practices, separating plastic bags and food waste from recycling and into refuse, utilizing flyers, signage, and other communication, in order to reduce very high cost of contaminated recycling. (MG3)
2. Explore possibility of a composting initiative at the Transfer Station, to offer that as a voluntary alternative for disposal of food waste. (MG1, MG3)

FY 2023 – 2024 SHORT TERM GOALS STATUS UPDATE:

1. Continue to dispose of municipal solid waste in the most cost-effective and environmentally-responsible manner possible. **Meeting goal. As many municipalities in greater Hartford struggle to identify alternatives to the closing Materials Innovation and Recycling Authority (MIRA), the City's continued participation in the Greater Bridgeport Regional Solid Waste Interlocal Committee has been cost-effective and environmentally beneficial. That relationship also helped provide for capital re-investment which sustains the local trash-to-energy plant.**
2. Reduce number of daily open routes by adding to roster of Maintainer III's, thereby reducing wear on workers, reducing lost time and increasing available drivers for snow events while also then returning Roadway workers back to Roadway for that division's core functions (illegal dumping, sweeping and madvacs, potholes and patching /street remediations, blight cleanups, etc). **Not meeting goal. Twelve daily sanitation routes and four daily recycling routes require 32 Maintainer III's to perform. Instead we have 27. This results in an average of at least 2-3 open routes every day before accommodating other absences for sick, personal, vacation, or other, which then means replacements are drawn heavily from Roadway thereby diminishing that division's capacity to perform its core functions.**
3. Continue safety training to sustain progress in prevention of work-related injuries and reduce open routes and related overtime, the number and expense of Workers' Compensation Claims, equipment damage due to improper operation, and absenteeism due to injury. Safety training

will include bending/lifting techniques, defensive driving, safe entrance/exit from vehicles and equipment, proper use of rollout carts and automated lifters, lock-out/tag-out training, blood-borne pathogen training. **Meeting goal. Ongoing. Completed lockout-tagout, fire extinguisher, lifting and bending, and defensive driving for snow plowing trainings.**

4. Work with administration and Council to implement a program where residents can buy replacement or additional rollout carts directly from the City. **Meeting goal, efforts ongoing. Currently working toward rewriting ordinances to establish process for residents to acquire additional toters. Meanwhile the department has implemented a cost-effective way of tracking, identifying, and recovering lost, misplaced, and stolen toters by inscribing addresses on outgoing toters, a less expensive method than chip installations.**

FY 2023 – 2024 MEDIUM-TERM GOALS STATUS UPDATE:

---

5. Install new signage at condos for dumpster rules. **Meeting goal. New signs will be digitally accessible via QR codes. Working on QR code with In-plant Printing. Awaiting approval from IT on email address and QR code. Once ticket is supplied to In-plant Printing and the shop delivers, department can proceed with installation.**
6. Update condo management contacts. **Ongoing. Constantly updating contacts of management of each condo. Difficult to maintain 100% accuracy because of continuous change in condo management personnel.**
7. Implement a more detailed rollout cart tracking system to provide date delivered, address and serial numbers. **Meeting goal. Department is inscribing addresses on the carts and entering serial numbers into master delivery workbook as they go out.**
8. Re-evaluate all refuse routes to ensure balance required by collective bargaining agreement (maximum 12 tons per route) while also reducing number of daily refuse routes from twelve to eleven. **Not meeting goal. Reevaluation completed, but findings indicate that with the increase of residents in the city it is best to maintain 12 routes and a standard/average of 12 tons per route. Also tonnages have gone up since pandemic hit, receding slightly since but not to the point where eliminating a route is practical again.**

FY 2023 – 2024 LONG-TERM GOALS STATUS UPDATE:

---

1. Continue to replace rollout carts gradually throughout City under General Fund to avoid capitalizing large expense all at once. **Meeting goal, gradually. Over past several years, have distributed approximately 6000 replacement rollout carts.**

FY 2023 – 2024 ADDITIONAL TARGETED ACCOMPLISHMENTS:

---

1. Continued to perform twelve sanitation routes and four recycling routes daily despite shortness in staff, and Covid restrictions.
2. Sanitation and Recycling continue to be among leaders in Public Facilities for fewest injury claims and lowest workers' comp lost time. Admirable accomplishment considering department history, illustrating effectiveness of accident investigations, shop-talk discussions, and zero tolerance approach.

Recycling FY 2023 – 2024 SHORT TERM GOALS STATUS UPDATE:

---

1. Work with elected officials to develop policies to reduce recycling costs while also reducing solid waste tonnages and avoiding increased costs overall. MG4. **Goal may be unattainable as it is a problem beyond the control of local officials or departments. Global markets have reduced the value of many commodities below zero. What had been a revenue to the City of approximately \$129,000 shifted to an expense of approximately \$535,000 for FY21 and has remained at or above that level since. Just as rates were improving in FY22, they skyrocketed up to the highest levels ever – more than \$99/ton where they remained for most of FY23, continuing at near-record levels for FY24, resulting in the biggest budget ever in FY24. If the City were allowed to treat some recyclables as solid waste until the market returns, that would help our expenses. But that would violate statutes, and changing those statutes is a non-starter with CT DEEP. Have met with municipal leaders from towns participating in interlocal group and resolved that no proposal that would reduce recycling costs for the towns would be supported at the state agency level.**

Recycling FY 2023 – 2024 MEDIUM-TERM GOALS STATUS UPDATE:

---

1. Re-examine condo pickup schedules, deployment of dumpsters and rollout carts to improve recycling participation at condos, continue to drive up tonnages and reduce complaints. **Meeting goal; ongoing effort. Identifying problem areas, improving contacts and communication. Replacing dumpsters as available funding allows.**

Recycling FY 2023 – 2024 LONG-TERM GOALS STATUS UPDATE:

---

1. Implement a detailed rollout cart tracking system to provide date delivered, address, serial number. **Meeting goal. All carts have owner's info inscribed when distributed and entered into system.**
2. Work with administration and Council to implement program where residents can buy replacement or additional rollout carts directly from the City. **Ongoing. Department requires residents reporting stolen carts to file Police report to get new one. This has created extra burden on Police, and they are helping to prepare a proposal for suggested solutions.**

FY 2023 – 2024 ADDITIONAL TARGETED ACCOMPLISHMENTS:

---

1. Working with CT DEEP and State legislature in pursuit of extended responsibility for packaging for consumer goods and tires, a system where commercial generators of packaging share in its costs downstream: Legislation re tires passed spring 2023; working on implementation.
2. To fight contamination of Recycling which drives up expense, have applied two sets of stickers directly onto every rollout cart showing what is accepted and what is not, as well as NO PLASTIC

BAGS stickers, which is very important. Direct mailer sent out spring 2023 as well.

3. Implementing pilot glass separation area at Transfer Station to provide for voluntary glass separation.

FY 2024 – 2025 SHORT TERM GOALS (To be achieved within one (1) year or less):

1. Reduce cost to the city for disposing of illegally dumped tires by working with the State to implement the new extended responsibility legislation. (MG3, MG7)
2. Maintain optimal day-to-day operations by adhering to transfer station load regulations and ensuring that daily tonnage is not exceeded. (MG6)
3. Ensure the safety of City employees and residents by working to make all aspects of the Transfer Station comply with all applicable state and federal safety regulations. (MG3, MG6)
4. Update existing signage to better inform residents when entering facility, as well as to help residents locate the facility from Boston and Asylum Street. (MG1)
5. Replace old gates to improve reliability and energy efficiency. (MG1, MG6)

FY 2024 – 2025 MEDIUM-TERM GOALS (To be achieved within 1-5 years):

1. Work with City Council to revise rules, policies, Ordinances to improve control over access to Transfer Station, including better identification of businesses, and applying charges more accurately to prevent true residential users from in-effect subsidizing businesses, demanding to be treated as residents, reducing costs and enhancing revenues. (MG1, MG2)
2. Computerize records to help identify frequency of haulers and charge businesses as such. (MG1)
3. Upgrade security to limit damage to equipment and stolen property. (MG3)
4. Increase information for the community through citywide outreach on proper disposal of solid waste and recycling using social media and City webpage. (MG3)
5. Explore possibility of initiating voluntary composting of food waste at the Transfer Station. (MG3)

FY 2024 – 2025 LONG-TERM GOALS (To be achieved in greater than 5 years):

1. Improve verification of city residence for access to Transfer Station, thereby reducing expensive tonnage/tip fee and improving accounting for tons delivered to disposal/burn plant, while also charging commercial haulers as such. (MG1, MG6, MG7)

FY 2023 – 2024 SHORT TERM GOALS STATUS UPDATE:

1. Get attention focused on huge volume of tires being disposed illegally. Commercial entities must be involved. City has been disposing of one 40-yd container per week on average. That’s approximately 400 tires per week. FY21 cost more than \$82,000 in disposal fees alone. FY22 brought a lower rate by going to a different vendor but disposed of 49 loads. FY23 continued at approx. one 40 yd container-load per week, adding to approximately \$80,000. **Meeting goal. The department worked with key State legislators, gaining passage during 2023 legislative session of extended responsibility bill. Now working on the implementation of that legislation. Additionally, the City holds anti-bligh meetings with multiple departments, including the**

*Police, to collectively combat and enforce measures against illegal dumping. Efforts are ongoing and never-ending.*

2. Continue to save the City more than \$300,000 per year by operating the Transfer Station in-house, avoiding the cost of an outside operator. **Meeting Goal. Transfer Station operations taken in-house Aug 1, 2016. FY19 would have been third year of private vendor operator contract had City not taken over and would have cost \$835,000 per year. The proposed contract called for increases each year of \$100,000 so FY20 likely would have been a cost of \$935,000, FY21 over \$1.035M, FY22 \$1.135M, and FY23 \$1.235M. Instead, City continues to operate Transfer Station in-house, saving well over the original \$300,000 per year.**
3. Install covers for 40yd containers to limit run off and secure loads. **Meeting goal. Installed several covers and are using tarps to cover the rest in the interim.**
4. Complete update of existing signage to inform residents when entering facility and add new signage on Boston and Asylum St that will identify where facility is located. **Ongoing. Currently procuring quotes for new signs.**
5. Replace overhead doors with new ones that will be more reliable and energy efficient. **Overhead doors repaired.**
6. Replace retaining wall in pit. **Wall rebuilt, structurally reinforced.**

FY 2023 – 2024 MEDIUM TERM GOALS STATUS UPDATE:

1. Work with City Council to revise rules, policies, Ordinances to improve control over access to Transfer Station, including better identification of businesses, and applying charges more accurately so that true residential users stop subsidizing businesses demanding to be treated as residents, reducing costs and enhancing revenues. **Ongoing. Discussions initiated with Council members, but nothing settled yet. Multi-year project involving other City departments, Administration and Council, as new policies need to be developed to improve verification and access to Transfer Station so that commercial entities representing as residents are identified and charged accordingly.**
2. Computerize records to help identify frequency of haulers and charge businesses as such. **Ongoing, part of process above, involving changes to policies and ordinances.**
3. Upgrade security to limit damage to equipment and stolen property. **Ongoing. Security improvements for transfer station included in citywide security upgrades.**
4. Increase information for the community through citywide outreach on proper disposal of solid waste and recycling using social media and City webpage. **Ongoing. Social media and webpage being used, but also stickers on all receptacles.**
5. Upgrade existing equipment to excavator with clam to improve speed and efficiency when loading trailer. **Goal re-evaluated. Based on demo performed with excavator, determined the equipment did not fit the needs of the operation. Another loader was purchased in place of the excavator.**

FY 2023 – 2024 GOALS STATUS UPDATE:

1. To continue the best quality of service to City residents and visitors throughout over 50 parks and open spaces we maintain while prioritizing safety and cleanliness. ***Ongoing and in progress. The Perry Memorial Arch Project Phase I is being prepared for bid and construction in 2024. Phase I shall replace the roof and interior plumbing to prevent further water damage to stabilize the historical monument. Phase II is planned in the subsequent year.***

NOTABLE COMPLETED PROJECTS:

Nanny Goat Basketball courts have been completely renovated with new cement base, posts, baskets and new paint via Sourcewell contract # 060518-AST. The new courts also have 8 refurbished bench areas for teams/visitors.

WentField Playground area has been renovated, incorporating tributes from the P.T. Barnum Circus, ranging from “tent areas” and various circus animals as part of the décor.

Wentfield Park area handball courts were completed, including a double-sided wall and play area outlined with new paint and striping.

McGovern Park Playground was completed in late spring Omnia Contract # 201700135. Project included the addition of various new apparatus including expanded sensory A.D.A. equipment.

We added a new dog park area at Success Park. The area includes two separate areas for small and large breeds. The areas also included the installation of benches and decorative fire hydrants!

OTHER NOTABLE ACCOMPLISHMENTS:

1. The parks department completed the renovation of the Seaside West Bathroom pergolas, with new wooden structures including columns and vibrant paint.
2. With the help of D.E.E.P. developed a shoreline protection program in the effort to help protect Horseshoe Crabs during spawning season. This effort will help to set a best practice precedent for other municipalities to follow.
3. St Mary's sidewalk restoration and installation of the continued railing system were completed in mid-summer. This process unified the existing wood rail system extending to the end of the cement sidewalk, closest to the "sand spit area".
4. Extended protection of the St. Mary's spit and intertidal flat areas. This area is currently being surveyed by "Landtech", an environmental firm contacted by the Aspetuck Land Trust and Ash Creek Conservation Association in effort to provide further data concerning the on-going erosion caused in part by dredging process by the Town of Fairfield. The area has also been adversely affected by visitors "digging" for sandworms and other bait that has caused further damage to soils, sediment and vegetation.

**FY 2024 – 2025 SHORT TERM GOALS (To be achieved within one (1) year or less):**

1. Replace 17' vessel with 20'-22' Patrol Vessel. The current 17' is past its safe working life to fulfill the needs of this department. It is used for patrol, search and rescue, shallow water missions and to get under low bridges. This vessel will be purchased through the Harbor Commission. (MG1)
2. Replace engines on the Pleasure Beach Water Taxi "Lewis Howard Latimer" prior to opening in the Spring. These engines have very high hours and are in need of replacement. One engine blew at the end of the 2023 season. Awaiting United States Coast Guard (USCG) approval. (MG1)
3. Minimize the number of abandoned boats within the City of Bridgeport. This has become a major issue over the past few years. (MG3)

FY 2024-2025 ADOPTED GENERAL FUND BUDGET

FY 2024 – 2025 MEDIUM-TERM GOALS (To be achieved within 1-5 years):

# BUILDING DEPARTMENT

---

## MISSION STATEMENT

The Building Department issues permits and inspects work done to all buildings and other structures. Permits include building, electrical, plumbing, heating, air conditioning, fire protection sprinklers and extinguishing systems, refrigeration, demolition, and signs. Applications for permits are reviewed for conformance to all applicable laws, codes, and ordinances. A permit constitutes permission to proceed with the approved work. The purpose of permits and inspections is to ensure public safety, health, and welfare insofar as they are affected by building construction, through structural strength, adequate exit facilities, fire safety, light and ventilation and sanitary equipment. The Building Department function is to secure safety to life and property from hazards incident to the design, erection, repair, removal, demolition or planned occupancy of buildings, structures, or premises.

FY 2024-2025 SHORT TERM GOALS (Achieving in 1 year or less):

- Reduce Toxic Sources of Lead** – Throughout the fiscal year beginning July 1, 2024, and ending June 30, 2025, Health Department personnel will identify and eliminate toxic sources of lead citywide. Actions will be taken in accordance with state federal and local mandate to cause remediation and or abatement in 70% of the units where hazards are identified. (MG3, MG4)
- Educate** – Program personnel will provide lead awareness education to parents, property owners, property managers, professional groups, construction contractors and social service agencies capable of assisting with the delivery of the lead safe living message to those they serve. The curriculum for the educational sessions is made available through the Centers for Disease Control. (MG3)
- Code Enforcement** - Personnel will take actions to assure compliance with all mandates: HUD guidelines, EPA rules, State statutes, and local ordinances as it pertains to the existence, elimination, disposal, and transportation of toxic levels of lead. Inspections will be conducted upon referral from a doctor, parent request, or concerned citizen reporting an alleged toxic source of lead. Actions to address all referrals will be taken. Orders to abate will be issued when lead hazards are found. Compliance with all orders issued will be sought to the fullest extent of the law. It is projected that 85% of all orders issued will be closed and/or in compliance or in progress by June 30, 2025. (MG3, MG4)
- Elevate the Number of Blood Lead Screenings** –Provide lead awareness literature to directors of daycares, organizers of community events, and schools that contain pre-K and Kindergarten classrooms. The literature will provide information about the causes of elevated blood lead, how to detect elevated blood lead levels in children and how to prevent toxic levels of lead exposure. It is hopeful that the literature distribution will inform parents to ask for a blood lead test from their physician. (MG3)
- Case Management** –Assure up to date entry into the required database and provide follow up on environmental and medical cases ensuring the Centers for Disease Control recommended actions of all environmental and medical cases under management. (MG3)

Goals	Original target percentage (%) of goals to be completed July - June (2022-2023).	Actual or Estimated percentage (%) of goals achieved July-June (2022-2023).	Reason for shortfall/success.
<b><u>FY 2022-2023 Short-Term (ST) Goals (Less than 1 year).</u></b>			
ST#1	100%	100%	Currently fully staffed and offering a wide array of professional development opportunities for staff participation.
ST#2	100%	60%	Still need to come up with a process for holding contractors responsible and currently working on spot checks to complete by deadline. It is likely this goal may need to be moved to June 30, 2024.
ST#3	100%	50%	This goal was initiated by the former Director who started a reference manual. Remaining topics include account set up and draw down. This goal should be completed by the deadline.
<b><u>FY 2022-2023 Medium-Term (MT) Goals (1-5 Years).</u></b>			
MT#1	100%	50%	This goal has proved challenging in the past due to back-end issues. We are currently collecting data on various fee collection software and should be in a position to meet with Finance over the next several months.
MT#2	50%	10%	While this goal is over 18 months away, we have begun the process of looking at potential strategic planning committee members. A timeline of activities is being developed.
<b><u>FY 2023-2024 Long-Term (LT) Goals (Greater than 5 years)</u></b>			
LT#1	25%	10%	Through current outreach efforts, we are starting to enhance services at afterschool locations. A dedicated program person is essential to ensure this goal can be achieved. Once this individual is in place, it will take time to foster relationships with afterschool staff and community agencies to ensure services offered meet the needs of our students and their families.
LT#2	10%	10%	Youth Services and the JRB have already begun to collaborate on family intakes. We are hoping to develop standard operating procedures on how these referrals and intakes happen.

**Prior Year Defeasance of Debt**

In prior years, the City defeased certain bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. At June 30, 2023, \$30,990,000 of prior bonds outstanding is considered defeased and the escrow balance is \$32,612,509.

**Legal Debt Limit**

The City's indebtedness does not exceed the legal debt limitation as provided by Connecticut General Statutes and as reflected in the following schedule:

<u>Category</u>	<u>Debt Limit</u>	<u>Net Indebtedness</u>	<u>Balance</u>
General purpose	\$761,697,916	\$386,419,350	\$375,278,566

FY 2024-2025 ADOPTED GENERAL FUND BUDGET  
DEBT SERVICE PROGRAM HIGHLIGHTS

---

The total overall statutory debt limit for the City is equal to seven times annual receipts from taxation, or \$2,369,726,849. All long-term debt obligations are retired through General Fund appropriations or user charges.

Indebtedness above includes bonds authorized, but not issued as follows:

General Purpose	\$43,361,263
Sewer	\$202,299,462

**Notes Payable**

The City issued grant and tax anticipation notes payable to fund cash flows for operating expenses. The activity related to the notes payable and balance at June 30, 2023, is summarized in the table below:

tion	Date Issued	Maturity Date	Interest Rate (%)	Balance July 1, 2022	Issued	Retired	Balance June 30, 2023
Bond Anticipation Notes	04/14/2022	10/14/2022	1.18	\$8,000,000.00	\$ 0	\$ 8,000,000	\$ 0
<b>Total</b>				<b>\$ 8,000,000</b>	<b>\$ 0</b>	<b>\$ 8,000,000</b>	<b>\$ 0</b>

In addition, the City has a State of Connecticut Clean Water Fund note payable of \$1,396,075 reported in the business-type activities, which was issued for sewer construction projects. The note carries a 2% interest rate, and the principal becomes payable upon the permanent refinancing of the note payable.

**Credit Risk**

Generally, credit risk is the risk that an issuer of a debt-type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. As indicated above, the City investment policies conform to the policies set forth by the state of Connecticut. The City has no investment policy that would further limit investment choices as a means of managing its exposure to fair value losses arising from increasing interest rates, however exposure is limited when compared to total assets. Presented below is the rating of investments for each debt type investment.

**APPROPRIATION SUMMARY**

\*MBR=Minimum Budget Requirement, a provision of Connecticut’s State Support for Education that sets a minimum sum per pupil that school districts must spend. ECS or Education Cost Sharing, aims to equalize some of substantial school funding disparities that municipalities with a large number of needy students encounter when trying to provide services. ECS provides for grants based on a formula that multiplies three factors: (1) a base aid ratio of each town's wealth to a designated state guaranteed wealth level (GWL), (2) the foundation, and (3) the number of each town's resident students adjusted for educational and economic need (“need students”). A per-student bonus is added for towns that are part of regional school districts. (A recent report from the Office of Legislative Research (OLR) on Education Cost Sharing reports on the present funding situation: <http://www.cga.ct.gov/2012/rpt/2012-R-0101.htm> )

REVENUE DETAIL

**PAYMENTS IN LIEU OF TAXES (PILOTs)**

Payments in lieu of taxes exist to reimburse cities for the cost of supporting non-profit infrastructures, properties owned and used by the State of Connecticut. The payments are equal to a percentage of the amount of taxes that would be paid if the property were not exempt from taxes. Payment percentages are 100% for correctional facilities, 100% for towns in which more than 50% of property in town is state owned, and 45% for all other property. Payment does not include payment for tax loss on exempt personal property owned by these facilities or property used for highways. In the Bridgeport budget, PILOT funding represents 7.50% of all revenues.

Other payments in lieu of Taxes in this category are subsidized development agreements the city has with private developers for some commercial real estate developments in the City of Bridgeport.

REIMBURSEMENTS

Reimbursements represent 1.00% of Bridgeport’s revenue. Reimbursements include funding for debt service. LoCIP (The Local Capital Improvement Program) distributes funds to municipalities to reimburse the cost of local capital improvement projects including road, bridge, and public building construction activities. Each year, the State Office of Policy & Management provides a formula-based entitlement to each municipality’s available LoCIP balance. These funds can accumulate from year to year. The FY 2023 State of Connecticut allocated LoCIP funds can only be used towards capital budget expenses reimbursements. The decrease in the FY 2023 debt service reimbursements is attributable to a one-time reimbursement that the city expected to receive from Bridgeport Landing Development Company (Steelpointe Facility) which is a private entity.

### CAPITAL IMPROVEMENT PROGRAM OVERVIEW & PROCEDURES

---

All Capital Equipment purchases are governed by Capital Procedures. Preparing and maintaining the Capital Budget is an imperative part of the City's management effort. Central to this management effort is providing accurate and thorough justifications for proposed capital projects, making the capital budgeting cycle transparent and straightforward. Specific criteria that guide Capital budgeting decisions are outlined below:

- 1) The City administration will develop a process for ensuring that capital investments provide the maximum community benefit and that appropriate supporting policies are implemented.
- 2) The City shall allocate a percentage of its general operating revenue for capital investment for the next five (5) fiscal years.
- 3) The City shall budget an increasing percentage of its CDBG allocations for the next five (5) years for capital.
- 4) All redevelopment and economic development projects shall include plans for specific returns (investment and leverage).
- 5) Priority will be given to those investments/projects that foster achievement of City Executive Committee goals and objectives, aid in the implementation of approved City plans, and conform to the following ideals:
  - Foster Economic Growth;
  - Foster Neighborhood Growth;
  - Foster Urban Conservation;
  - Conform to the City's five (5) year plan;
  - Replace or renovate existing obsolete or deteriorated elements of the City's property rather than providing additional facilities;
  - Reduce the cost of operations or result in a net increase in general revenues;
  - Are mandated by governmental agencies;
  - Do not duplicate other public and/or private services;
  - Reduce energy consumption;
  - Benefit low and moderate-income persons and/or slow economic blight;
  - Are located in targeted neighborhoods and economic development areas, i.e. (enterprise zone); and
  - Improve the safety and security of citizens.

### DEFINING CAPITAL EQUIPMENT & CAPITAL PROJECTS

---

**Capital Equipment** is defined as any item that has an expected life of five (5) years or more and a purchase price in excess of \$20,000.00. Items costing less than \$20,000.00 and lasting less than five (5) years are to be purchased from material and supply accounts. The purchase price includes any costs of acquisition or transportation of the item or other costs associated with the installation or placing it into service. The expected life for a piece of equipment is that period of time for which it will be useful in carrying out operations without major repair to its physical condition. Generally, capital equipment includes, but is not limited to, furniture and fixtures, machinery and motor vehicles.

Capital equipment *excludes* commodities that are converted in the process of construction, or that are used to form a minor part of equipment or fixed property. In addition, repairs will normally not be capitalized regardless of the cost of repair or the extent of repair relative to the cost of a new item. The

following examples occur frequently and are intended to serve as a guide in deciding whether or not to capitalize an item.

- Calculators - will not be capitalized.
- All furniture costing more than \$20,000.00 *will* be capitalized.

The **Capital improvement program** is defined as a plan for capital expenditures over a multi-year period to meet identified improvements in the infrastructure.

The **Capital Budget** is the first year of a five-year plan for capital expenditures to be incurred over a given fiscal year from funds appropriated by the City Council for project scheduled in the same year.

**Capital Projects** are the improvements that make up the capital budget. Each project has a specific purpose, justification and cost. Projects propose physical improvements in different elements of the City's infrastructure. Improvements include but are not limited to: construction, reconstruction, rehabilitation, modification, renovation, expansion, replacement, extension of streets, bridges, buildings, sidewalks, playgrounds, traffic signals, ramps, lights and acquisition of land, buildings with associated relocation, demolition and improvements such as landscaping, fencing and paving.

#### CAPITAL IMPROVEMENT PROGRAM REQUESTS

---

All Capital Projects under Consideration must be accompanied by a description including the following detail and descriptive information:

- 1) **PROJECT TITLE:** Enter the title best describing the project. Be concise, but as descriptive as possible.
- 2) **SUBMITTED BY:** Enter the Department, and division, if applicable.
- 3) **CONTACT PERSON:** Enter the name and telephone number of the person who can best answer detailed questions about this project.
- 4) **PROJECT DESCRIPTION:** Give a full, detailed description of the project. The description must contain enough information to allow for a detailed project cost estimate. If the project is construction of a building, specify the following: size; use; type of building; utility type; etc. If it is a street project, specify the following: length; width; whether it is new construction, reconstruction or resurfacing; whether it involves new signals, sewers, and/or sidewalks; etc. Any project with insufficient information to develop a cost estimate will not be considered.
- 5) **PROJECT JUSTIFICATION:** Support the need for this project. Some of the questions you might want to consider follow:
  - Does the project meet established standards and/or codes?
  - Does it eliminate a health, fire or safety hazard?
  - Does it serve a segment of the community not currently served?
  - Does it foster private investment? How much?
  - Does it create jobs? How many? What type?
  - What will happen if the City does not undertake this project?
  - Use the above and the Capital Allocation Checklist as a guide in submitting justifications.
- 6) **PROJECT LOCATION AND SERVICE AREA:** Give a brief description of the community impact the project will have as well as the area it will serve.

- 7) SIGNATURE: The Department Director must sign the bottom of the form and date it. The signature indicates that the director approves of the submission of the project and agrees with the information provided.

PROJECT COST ESTIMATE INSTRUCTIONS

- 1) PROJECT TITLE: The name of the project for which the estimate is being prepared.
- 2) PROJECT COST: Enter the cost estimate for each line item of the project for the upcoming fiscal year. All costs must be detailed by line item.
- 3) TOTAL PROJECT COSTS: Use this column *only* if the project requires multi-year financing and the total cost is not reflected in the one (1) year column.
- 4) ESTIMATE PREPARED BY: Enter the name, department and division of the preparer.
- 5) COMMENTS: Enter any comments the department preparing the cost estimate may have regarding this estimate or this project itself.

CAPITAL EQUIPMENT REPLACEMENT SCHEDULE

<u>ITEM</u>	<u>SCHEDULE</u>	<u>MAXIMUM</u>
Street Sweepers	Every 5 years	1 per year
Dump Trucks	Every 7 years	1 per year
Loaders	Every 12 years	1 per year
Tractors	Every 10 years	1 every 5 years
Sanitation trucks	Every 7 years	2 per year
Police Cruisers	Every 5 years	21 per year
Passenger Vehicle	Every 7 years	depending on condition
Light Trucks - Vans	Every 7 years	depending on condition
Specialized Large Equipment	As needed	
Fire Engines		
Front Line	Every 15 years	
Reserve	Every 20 years	1 per year
Fire Trucks		
Front Line	Every 20 years	
Reserve	Every 25 years	1 per year

The following policies have been established to encourage the replacement of outdated capital equipment, realizing limitations of funding. In all cases, the equipment requested shall be of the type and quality necessary for the efficient accomplishment of the departments' service functions.

- EQUIPMENT FOR EQUIPMENT REPLACEMENT Example: Two-for-one trades will have preference over one-for-one trades.
- EQUIPMENT FOR DIRECT COST SAVINGS Example: Capital equipment proposals that offer direct cost savings to the City will have preference.

- EQUIPMENT FOR POSITION(S) REPLACEMENT Example: Proposals from departments for abolishing position(s) in return for equipment will have preference.

All capital equipment rollovers will be monitored for performance as the City expects increased turnover to dramatically reduce manpower time and equipment idle (repair) time.

## CAPITAL IMPROVEMENT PROGRAM PROCEDURES

---

### PROCESS

Who decides: the City Council, through the Budget and Appropriation Committee, provides the final approval of all Capital Improvement Programs, budgets and projects. The Mayor recommends the Capital Program by way of two committees:

Technical Review Committee: Reviews department submissions for priority ranking and capability.

Capital Finance Committee: Reviews the recommendations of the Technical Review Committee and determines the project need by evaluating the following:

- Technical Review Committee priority;
- Economic & community need/impact;
- and Financial accessibility.

### HOW DO PROJECTS GET CONSIDERED?

#### STEP I - SUBMISSION

Per the budget schedule, the Office of Policy and Management requests capital project proposals from the Department Directors. These proposals contain a project description, its justification and location. The Capital Allocation Checklist must be used by departments and review boards in developing and justifying capital submissions.

#### STEP II - TECHNICAL EVALUATION

After projects are submitted, the Office of Policy and Management will convene the Technical Review Board. This committee, made up of the City Engineer, City Planning Director, Public Works Director and two representatives of the Office of Policy & Management (OPM), evaluate the impact of each project based on the provided description and justification. Impacts are measured against the approved technical criteria. During this process, projects which are similar are consolidated, projects already financed or which should be requested as part of an operating budget are eliminated. This results in a final recommended priority list.

#### STEP III - CAPITAL FINANCE COMMITTEE SELECTION

The prioritized list of submissions is presented to the Capital Finance Committee for an initial cut. Using the technical evaluation as the basis of the decision, this committee will select those projects which merit further consideration and eliminate those with lower priorities.

#### STEP IV - NOTIFICATION TO DEPARTMENTS

Once the Capital Finance Committee selects the projects, OPM sends a letter to all departments informing them of the decisions. The notification letter contains several items:

FY 2024-2025 ADOPTED GENERAL FUND BUDGET

APPENDIX

CAPITAL BUDGET POLICIES

---

- A list of projects that will be considered. Each department is responsible for preparing the cost estimate;
- A list of projects that have been eliminated;
  
- A description of the appeal process;
- Cost estimate forms;
- And copies of all project descriptions still in consideration.

Departments are to provide any updated information on the project descriptions and develop a cost estimate to be submitted to OPM.

STEP V - APPEAL

Each department is given one (1) week to review the disposition of each project they originally submitted. They may appeal any of those projects. This is done by submitting a written letter of justification that they wish to be reconsidered or a program that should be eliminated. All justifications are reviewed by the Capital Finance Committee and the department director will be invited to a meeting to answer any questions members may have. Based on the justifications presented the Capital Finance Committee will make a final determination. Departments will be notified the following week.

STEP VI - COST ESTIMATES

For all projects still in consideration, a cost estimate will be developed. These will be submitted to Office of Policy and Management.

STEP VII - FINAL EVALUATION OF PROJECTS

The Executive Committee, appointed by the Mayor, reviews all of the recommended projects and evaluates those for final presentation to the City Council. The final list will be evaluated from the priority list and available resources and submitted no later than the first Tuesday in March preceding the next fiscal year start.

STEP VIII - FINAL APPROVAL

Final approval to proceed will be given by the City Council. This is done through the voting of the council no later than the first Tuesday in May preceding the next fiscal year start.

STEP IX - NOTIFICATION OF SELECTED PROJECTS

After the Capital Improvement Plan is developed, the Office of Policy and Management will notify departments whose Capital Projects were adopted and will publish the Capital Budget. The document will contain the details of the selected projects as follows:

- Project descriptions;
- Funded amounts;
- Funding sources;
- and the Responsible agency.

AMENDING THE CAPITAL IMPROVEMENT PROGRAM

---

From time to time during the year changes must be made in the Capital Improvement Program (CIP). These changes are made through a CIP Amendment request. A CIP Amendment is required under the following conditions:

- Financing a project not previously considered. This may result from emergencies that may occur during the year, or a change as needed.
- Increasing the funded amount of an existing project. These may arise from unanticipated inflation, change in the original project description or bids which come in higher than the original cost estimate.

A CIP Amendment is processed as follows:

- 1) The department responsible for the project makes an initial determination that additional funds are required for a specific purpose.
- 2) A written request by the Director is submitted to OPM. The request will include:
  - A) Name of Project;
  - B) Additional funds requested;
  - C) Total current cost of the project; and
  - D) Justification of request.
- 3) The Office of Policy and Management will make a recommendation to the Capital Finance Committee which approves or disapproves the request.
- 4) If the request is approved, OPM will prepare a report and resolution for approval from the City's City Council. The report will be placed on the earliest possible agenda of the City Council.
- 5) Upon approval of the City Council, OPM will request the Comptroller's Office to establish an account number or increase the original appropriation.
- 6) The Department proceeds with the project after steps 1-5 have been performed. They will be notified by OPM.

## ACCOUNTING PROCEDURES

After all the projects have been approved by City Council the Comptroller's Office will begin the process of establishing accounts for the approved programs. All appropriations will be established based upon the approved project cost and prepared by using the line item criteria established by the cost estimate forms.

In addition, the Comptroller's Office will be responsible for the following:

- 1) Maintaining grant agreements;
- 2) Maintaining audit records;
- 3) Receiving and recording revenues;
- 4) Distributing payments;
- 5) Reconciling the general ledger;
- 6) Reconciling bank statements and investments; and
- 7) Monitoring department performance.

The Department Director or Project Manager will be responsible for the following:

- 1) Creating monthly project status reports;
- 2) Creating and maintaining project timetables;
- 3) Explaining project changes and/or cost overruns;
- 4) Providing updates to the City Council;
- 5) Presenting projects to committee and the City Council;
- 6) Completing data detail for the Comptroller's Office; and
- 7) Estimating costs and/or staffing requirements.

CAPITAL BUDGET DETAIL

FY 2025-2029 PROPOSED CAPITAL PLAN AS IT RELATES TO OPERATIONAL BUDGET			
PROJECT NAME	EXPLANATION	COST	OPERATING BUDGET IMPACT
Lafayette Blvd/Fairfield Ave./Redesign-(10 %City Match)		350,000	
Blight / Demolition / Clean Up/Property Management	Capital Expenditures to perform large scale demolition of blighted obsolescent and abandoned buildings	2,000,000	As chronically blighted and/or abandoned properties often produce no tax revenue and create service costs (e.g., fire, police) for the city, these expenditures will convert zero producing or negative producing properties into tax producing properties.
	<b>Total OPED</b>	<b>2,350,000</b>	
Roadway Paving, Culverts, Intersections(Amendment)	Paving, Resurfacing, Improvements of City streets.	3,000,000	Fundamental Public Facilities responsibility to provide driveable roadways for economic and commercial activity as well as public safety and liability mitigation. Winter weather and ongoing wear cause cracks, potholes, erosion and other damage to city streets. Repaving and other improvements helps to reduce damage to vehicles, thereby reducing claims against the City for liability. Estimated savings is \$80k per year, as one successful legal claim can cost the City more than \$50k.
Brewster Street - Boat Ramp Rebuild		1,000,000	
Public Facilities Equipment	Replacement of large vehicles and equipment for Public Facilities divisions of Roadway, Sanitation, Transfer Station, Facilities Maintenance, including sanitation/recycling trucks, , sweepers, madvacs, snow trucks, rolloff, fuel tanker, mason dumps plows and sanders, trades vans, loaders and more.	1,000,000	Replacement of equipment beyond its useful life necessary to continue to provide daily sanitation and recycling service, road repair, snow removal, transfer station waste and recycling and more. Replacing equipment instead of continuing to service expired equipment saves at least \$75k-\$100k per year in parts, manpower and outside services.
City Wide Building & Security Improvements	City Hall rebuild of area and offices destroyed by flood in TS Ida Oct 2021, electrical systems, along with building water infiltration prevention measures. City Hall Annex (MMGC) for roof drainage improvements. Ralphola Taylor Center Roof replacement.	1,000,000	Rebuild of City Hall in order to re-establish City offices to provide consolidated services to public. Replacement of leaking, worn out rooves reduces water infiltration and damage to walls, windows and interiors, mold and helps to preserve the buiding's infrastructure, maintaining its useful life, address employee health complaints and federal requirements, while also reducing utility consumption, and avoiding repeated temporary but expensive short-term repairs. Without a continued, comprehensive capital plan for buildings and facilities, the General Fund budget would need to be \$500k - \$750k more per year easily, and much more if building failures, employee claims and federal regulation enforcement were to be widespread and sustained.
Various Airport Improvements/Equipment's Projects	To continue to maintain Sikorsky Airport as a regional economic development and commercial asset, and enhance its value while continuing to work with state for longterm solution to its viability. Security/Wildlife Fence Design and Construction (5% City portion for FAA Grant). Roof repair of traffic control tower and Snow Removal Equipment City portion to leverage FAA funding for balance.	200,000	Tree removal to maintain clearance on runway approaches critical to basic safety, avodance of accidents and liability. City share of West Development Area in accordance with Master Plan required as City portion of 90%-FAA funded project. Design of runway shift also part of a 90% FAA-funded project. Needed to keep airport viable until regional/state plan finalized.
Parks Maintenance Equip(Include Golf Course)	Equipment necessary to maintain parks and golf course for public enjoyment.	345,000	Continued replacement parts for old equipment beyond useful life cannot be justified, and can be estimated at \$50k per year especially when factoring lost time. Equipment fundamental to public enjoyment of parks. To rent this equipment and/or to hire outside vendors would cost well in excess of \$300k per year.
Various Parks Improvements - Citywide		300,000	Continual improvements to City parks is fundamental to remaining the "Park City." Recreation opportunities for City residents irreplaceable
Tennis Courts Improvement - Citywide		275,000	Continual improvements to City parks is fundamental to remaining the "Park City." Recreation opportunities for City residents irreplaceable

CAPITAL BUDGET DETAIL

FY 2025-2029 PROPOSED CAPITAL PLAN AS IT RELATES TO OPERATIONAL BUDGET			
PROJECT NAME	EXPLANATION	COST	OPERATING BUDGET IMPACT
Park Restrooms - Citywide	Additional parks restrooms, and upgrades to existing facilities. Working through list: Seaside Park West Beach, Washington Park, Went Field, then Marin splashpad; includes utility ties and ADA compliance.	150,000	Providing basic sanitary facilities to parkgoing public, enhancing public health and quality of life. Portable latrines a poor substitute and expensive, costing approx \$50k per year citywide.
Seaside Bathhouse Study		250,000	
Golf Course Improvements		350,000	Revenue at Golf Course trending past two seasons to all-time highs. Important for golf course to maintain both safety and playability to keep golfers choosing Fairchild Wheeler and continue annual revenues that exceeded \$2.4M last year. Badly eroded bunkers create trip and fall hazard while also exposing fabric underlying sand, which can impede golfer's swing and cause injury.
Sliver By The River Outdoor Improvement (50% City Match)		1,000,000	
Police Headquarters 300 Congress Street- Windows/walls/Masonry		2,000,000	The Bridgeport Police Department needs a building. The current building is outdated and requires repairs every year. Recently, the city spent approximately 1.6 million to repair the ongoing roof-leak problem that was worked on two years prior. Every window in the building is dry-rotted and causes leaks when it rains. These leaks are creating mold in certain areas of the building. We are currently running out of space to store evidence. All these expenses are coming out of the Operational Budget. The police academy is outdated and requires repairs and upgrades to receive approval from POST-C to train officers and police recruits. We currently pay approximately \$100k to lease space for firearms training that comes out of the Operations Budget. A new state-of-the-art police building will give the police department the ability to house all our divisions and units under one roof. As technology and police accreditation mandates continue to grow for policing, the need to have a building that can properly function also increases. A new police building will further increase morale and create a buy-in that the City of Bridgeport has invested in our officers.

CITY OF BRIDGEPORT UNDESIGNATED FUND BALANCE POLICY

PURPOSE

To maintain a balance of funds within the total unreserved, undesignated fund balance to be available for unforeseen contingencies.

*Definition: Unreserved, undesignated fund balance is the remaining balance available following the reduction for “resources not available for spending” or “legal restrictions” (reservation) and “management’s intended future use of resources” (designation).*

POLICY

The sum of all components identified for the undesignated fund balance level will be set at no less than 8.00% of annual operating expenditures and other financing uses (transfers out) of the prior audited fiscal year with the annual approval by the City Council. In the event that the undesignated fund balance exceeds 12.00%, the amount exceeding this percentage may be available for appropriation at the discretion of the Mayor with the approval of City Council.

REPLENISHMENT OF SHORTFALL

The undesignated fund balance of the General Fund may fall below the approved minimum level due to fluctuations between planned and actual revenues and expenditures, other financial emergencies or catastrophic events of an unforeseen nature. When an audited shortfall is reported in the Comprehensive Annual Financial Report (CAFR), it must be rebuilt during the following ensuing fiscal years. This will be achieved by adding an annual appropriation, during the budgeting process of a minimum of 10% of the difference between the fund balance policy level and the undesignated fund balance presented in the latest audited statements.

When dealing with the unanticipated sale of municipal assets, no less than 50% of the “gain on sale of city asset” must be deposited toward the undesignated fund balance until the 12.00% goal has been achieved.

The maintenance of undesignated levels in fund balance is not to be construed as surpluses or over-taxation by the City. Rather, it is an element of sound fiscal management required for sustaining a high credit rating and financial management flexibility.
